How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

NOTICE OF UNAUTHORIZED USE OF CONTRACTOR'S LICENSE

TO: ALL CHIEF BUILDING OFFICIALS IN BROWARD AND PALM BEACH COUNTIES

Please let this letter serve as notice that the license number under which our company is qualified, CGC1514456, has been used by a Mr. Ralph Meadows of "Ram or Shine Patios" to fraudulently pull (9) permits in the Broward and Palm Beach County areas, without our approval or consent. The fraudulent person has been utilizing our licenses and pulling unauthorized permits by forging names and signatures on the permit documents.

We have submitted a formal complaint to the Department of Business and Professional Regulation, which is currently under investigation. We are also in the process of filing an injunction to stop Mr. Meadows from using our name.

We are asking your building department to assist us in this investigation. **We kindly request your department's assistance to do the following:**

1) Temporarily suspend ALL open or pending permits listed under "Jersey Pride Construction" as the contractor, until our qualifier has visited your department in person.
2) Call our qualifier at 954-947-0880 to inform us if there are permits that you have suspended.
3) Reject any new permits or documentation presented by Mr. Ralph Meadows.

Thank you very much for your assistance in this matter. If there are any questions please contact our qualifier's mobile phone at 954-947-0880.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the fax.

● Machine Behavior in Fax Reception

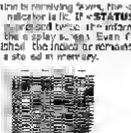
This section explains how your machine behaves when receiving and sending faxes.

Machine Behavior

The machine behavior differs depending on the specified reception mode.

Your machine is set by factory default to **[Fax Ready Mode]**, so it is automatically receives faxes. If you have changed the fax reception mode, see the following section for the machine behavior.

When the machine is receiving faxes, the **<DATA IN MEMORY>** indicator is lit. If **<STATUS>** is pressed and ▶ is pressed consecutively, information is displayed on the display screen. Even if fax reception is finished, the indicator remains lit while the data is stored in memory.



● If the memory overflows while faxes are being received, the reception is canceled. Have the sender resend the fax.

When Receiving Calls and Faxes (Tel/Fax Ready Mode)

When the machine is set to **[Tel/Fax Ready Mode]**, you can receive calls and faxes. You must connect an external telephone if you want to receive calls.

● To check if you have received an automatic call, talk on the connected telephone first.

■ Receiving Faxes

The machine automatically starts fax reception.

■ Receiving Calls

The telephone starts ringing when it receives calls.

1 Pick up the handset when the machine rings.
You can talk with someone on it.

2 If you want to receive a fax, press [Start].
If you keep picking up the handset, you can hang up the call after the machine stops ringing.

● If you can't receive a fax, it is recommended that you activate [Tel/Fax Ready Mode]. For more detailed information, see "Tel/Fax Ready Mode" (page 100 in Basic Manual).

● If you want to set a fax number, a name, your name, your fax number, or your telephone number, see "Setting Your Name and Fax Number" (page 20 in Basic Manual).

When Connecting An Answering Machine (Ans/Fax Ready Mode)

When the machine is set to **[Ans/Fax Ready Mode]**, you can use an answering machine to send and receive faxes automatically. Calls can be received on the connected answering machine only.

● If you want to set the answering machine and the other external [Ans/Fax Ready Mode], see page 100 in Basic Manual.

● For details about how to connect an answering machine, see "Connecting an Answering Machine" (page 14 in Basic Manual).

■ Receiving Faxes

The answering machine rings, but only receives fax messages. The machine automatically starts fax reception.

■ Receiving Calls

The answering machine rings, but only receives messages. Then it starts recording a message.

When Often Using Telephone (Tel Ready Mode)

[Tel Ready Mode] is recommended if you often use the external telephone connected to the machine.

■ Receiving Calls

The telephone starts ringing when it receives calls.

■ Receiving Faxes

The telephone starts ringing when it receives a signal.

1 Pick up the handset when the machine rings.

2 Press [Start].
To receive a fax immediately after receiving a fax, let the machine receive. After the fax has been received, you can talk on the phone.

A Classroom Without Walls

SECOND LIFE ENABLES VIRTUAL LEARNING

AT FIRST ERIN MCCORMICK wasn't so sure about Second Life's potential as a teaching tool.

Such skepticism isn't unusual. To many the 3-D virtual world seems more like a game, a way to kill time and escape reality. But once McCormick investigated Second Life she became a believer in its possibilities. "It's a more than just a game," says McCormick, director of the Curriculum Innovation and Technology Group. "I'm a skeptic transformed."

The College has been busy exploring Second Life's uses for teaching, networking, and communicating. President Leo Schlenger's October inauguration was streamed in Second Life; the National Collegiate Inventors and Innovators Alliance awarded Babson a grant to help create a virtual entrepreneurship incubator in Second Life, and the College has its own region in the online environment, known as Babson Island. Roam around the island's surreal landscape, and you will see buildings and trees, pools and Adirondack chairs; presentation screens and meeting spaces.

Perhaps Babson's most significant Second Life effort is Second Life and Entrepreneurship, a seven-week course the College has offered since fall 2007. After gathering face-to-face for the first class, course participants travel to Babson Island, where avatars, customizable digital representations of the students themselves, meet for subsequent classes.

Such a nontraditional educational experience typically takes students a few classes to get the hang of, but feedback from student surveys has been overwhelmingly positive, says McCormick, who has taught the Second Life class. Many students believed their ability to learn, as well as work with classmates, was as good in Second Life as in a conventional classroom if not better.

> **Many students feel their ability to learn is as good in Second Life as in a conventional class, if not better**

Students felt connected to each other. In a regular classroom, they may not know those sitting across the room or those who don't regularly contribute. In Second Life, though, students engage their senses, security and learning all the class avatars. "It felt like you were all together," McCormick says.

Second Life also improved accessibility. It allowed guest speakers to attend the class, even if they were hundreds of miles away and students weren't required to commute to campus. All they needed to do was put on a headset and flip on a computer. "It replicates a classroom environment complete with voice but without the constraints of having to be there," says John Bourne, who also has taught the Second Life class. Bourne is the director of the Olin Babson Center for Online Learning, and he's a faculty member at both Babson and Olin colleges.

First introduced to the public in 2003, Second Life is still a new technology. Just as with the early days of the Web, people are figuring out how to utilize Second Life. "It's just the beginning," McCormick says.

Beyond the classroom, Second Life offers many installing possibilities for the College. It provides a place for entrepreneurs to experiment with business ideas, and in the future may allow potential students to check out a virtual Babson. Second Life also can be used to conduct presence interviews that while taking place online are still very real. "You still have the butterflies," McCormick says.

For questions about Second Life at Babson, contact McCormick at emccormick@babson.edu.

Roku, Xbox One and smart TVs are alternatives to new digital fees

By Samantha Christmann
Star Tribune Reporter

At a cost of $42 per year, per television, you may be looking for a way to view your Spectrum cable subscription without the added expense of leasing the cable company's digital converter equipment.

But if you have a little bit of technical savvy, there are ways to get around the $11.75 a month charge that Spectrum customers will be facing for every TV set that connects digitally to cable, without a converter box.

And some customers may already have the equipment they need to do it, as long as that equipment can access the Spectrum app.

Users can access their Spectrum channels through the Spectrum app on certain streaming devices, namely a Roku or an Xbox One gaming console. Both will need a fast Internet connection to work. Customers can also upgrade to a regular set-top box through Spectrum to get more value for their dollar, or invest in an Internet-ready Smart TV.

Here's the bad news. Only some devices can access the Spectrum app. If you own an Amazon Fire Stick or Fire TV you're out of luck. Same thing if you own a Google Chromecast or Apple TV. None of those popular devices has the Spectrum app.

But here are some ways that do work:

Get a Roku. The Roku Express costs a one-time price of $99.99 on Amazon.com. It's tiny – about the size of a USB memory stick – and weighs just a few ounces. It plugs into an HDMI port in the back of your television. On its own, the Roku will also give you access to more than 500,000 movies and TV episodes on its own, without a cable subscription.

But if you download the Spectrum app to the Roku, Spectrum customers can use the app to access the same live TV On Demand content and guide listings they would receive with the new digital converter.

Put your Xbox One to use. The App also works on the Xbox One gaming console, just the same as it does with a Roku. But, with prices starting around $242 for the game system, it's a pricier option if you don't already have one and don't plan to buy one.

If customers want DVR service with their new set-top box, they will pay for the box plus an additional $12.99 per month for one digital receiver or $19.99 a month plus the set-top-box cost for up to four digital receivers.

And, of course, you can always upgrade your television to a Smart TV. Certain Samsung models are compatible with the Spectrum app.

A farmer asked the vet to come out to check on his favorite bull who wasn t doing well at all.

After checking the bull s vital signs the vet reached in his black bag and pulled out a rather large pill He forced open the bull s mouth and crammed the pill down his gullet. Suddenly the bull jumped up and took off like a banshee jumping every fence in his way The vet excla med "Well, looks like your bull is healed!"

The farmer replied "How give me one of those pills. I've gotta catch him!"

TODAY IN TRIVIA **Why is February 1st celebrated as Robinson Crusoe Day?** It's not the author s birthday or even the birthday of the fictional character of Robinson Crusoe. It's actually the date of the 1709 rescue of Scottish castaway Alexander Selkirk who lived for four years on a Pacific Island off the coast of Chile and is believed to be the inspiration for the book, "*Robinson Crusoe* "

QUIP OF THE DAY Did you know that dolphins are so smart that within a few weeks of captivity they can train people to stand on the very edge of the pool and throw them fish?

THAT'S (ALMOST) ALL FOLKS!

Thought for the day . . The ideals which have always shown before me and filled me with the joy of living are goodness beauty and truth Albert Einstein

THIS is a TEST for my personal fax machine.

Step 7 Connecting Cables to Internal Connectors

7-1 Connect cables to internal connectors and headers on the motherboard, including IDE/SATA connectors, and front panel audio USB, IEEE 1394 headers, etc.

7-2 Attach the front panel module (differs depending on the case design, but mainly of power indicator, hard drive activity indicator, speakers, reset switch, power switch, etc.) from the case to the front panel header (F_PANEL) on the motherboard.

Front Panel Module

(Note) The pin assignment and the front panel header may differ by model. Refer to the motherboard user's manual for the actual pin assignments.

Step 8 Connecting Peripherals

Once the steps above have been completed, connect the peripheral devices to the computer, such as the keyboard, mouse, monitor, etc. Then connect the power, turn on the system, and install all required software.

Die Installationsanleitungen kann je nach Typ der verwendeten Hardware leicht abweichen. Es wird empfohlen, die folgenden Installationsanweisungen basierten Gerätetyp-Systems von GIGABYTE und Ihrer Hardware als Referenz.

Schlagen Sie bitte unmittelbar vor der Installation der Hardware in Installations-Benutzerhandbuch.

Stellen Sie vor der Installation von Geräten sicher, dass diese Geräte mit dem Betriebssystem Ihres Computers kompatibel sind.

Schalten Sie immer vor dem Installieren der Geräte und dem Computer aus. Trennen Sie den Computer vom Netzkabel, um Schäden an den Geräten und den Systemkomponenten zu vermeiden.

Setzen Sie der Computerkomponenten und alle anderen Hardware, damit die Installation korrekt durch Wackeln keine Schäden.

Schritt 1 Installieren einer CPU und eines CPU-Kühlers

A. Installieren einer Intel CPU (überspringen Sie diesen Schritt, wenn das Motherboard über einen eingebauten Prozessor verfügt)

A-1 Befolgen Sie die folgenden Anweisungen basierend auf Ihren CPU-Spezifikationen:

Typ A:

Heben Sie den CPU-Sockelhebel an, danach hebt sich auch Metallschutzabdeckung.

a. Falls die Schutzschutzabdeckung an der CPU-Sockel befestigt, entfernen Sie sie zunächst.

b. Falls die schützende Sockelabdeckung an der Metallabdeckung befestigt ist, nehmen Sie sie jetzt noch nicht ab. Die Sockelabdeckung wird beim Installieren des Hebels automatisch abgehoben.

Typ B:

Drücken Sie Hebel A (der Markierung nach weiter und vom Sockel weg, um zu lösen. Drücken Sie dann Hebel B (der Markierung am nächsten) nach unten und vom Sockel weg und heben Sie ihn an. Drücken Sie schließlich Hebel A, um den Sockelrahmen zu lösen. Sie den Deckschutzrahmen.

A-2 Halten Sie die CPU mit Daumen und Zeigefinger. Richten Sie die (Dreieck) Markierungen für Pin der CPU über die Pin 1-Ecke des CPU-Sockels aufeinander aus. (Sie können ebenfalls die CPU Kerben auf die Ausrichtungsnasen des Sockels ausrichten.) Legen Sie dann vorsichtig die CPU in den Sockel Positionen ein.

A-3 Legen Sie den Sockelrahmen wieder auf und stellen den CPU-Sockelhebel in seine Ausgangsposition zurück, sobald die CPU richtig sitzt.

Bringen Sie den Deckschutzrahmen nach dem ordnungsgemäßen Einsetzen der CPU in Position. Sicherheit Sie sicherheitshalber Hebel B unter diesem Schlaufenglied ein. Die Sockelabdeckung kann nicht Schließen des Hebels von Deckschutzrahmen kann. Schauen Sie darauf Hebel A unter Schließvorgang um die Installation der CPU abzuschließen.

Detaillierte Anweisungen zur CPU-Installation entnehmen Sie bitte der Bedienungsanleitung.

SOCIAL SECURITY ADMINISTRATION
Application for a Social Security Card

Applying for a Social Security Card is free!

USE THIS APPLICATION TO

- Apply for an original Social Security card
- Apply for a replacement Social Security card
- Change or correct information on your Social Security number record

IMPORTANT: You MUST provide a properly completed application and the required evidence before we can process your application. We can only accept original documents or documents certified by the custodian of the original record. Notarized copies or photocopies which have not been certified by the custodian of the record are not acceptable. We will return any documents submitted with your application. For assistance, call us at 1-800-772-1213 or visit our website at www.socialsecurity.gov.

Original Social Security Card

To apply for an original card, you must provide at least two documents to prove age, identity, and U.S. citizenship or current lawful, work-authorized immigration status. If you are not a U.S. citizen and do not have DHS work authorization, you must prove that you have a valid non-work reason for requesting a card. See page 2 for an explanation of acceptable documents.

NOTE: If you are age 12 or older and have never received a Social Security number, you must apply in person.

Replacement Social Security Card

To apply for a replacement card, you must provide one document to prove your identity. If you were born outside the U.S., you must also provide documents to prove your U.S. citizenship or current, lawful work-authorized status. See page 2 for an explanation of acceptable documents.

Changing Information on Your Social Security Record

To change the information on your Social Security number record (i.e., a name or citizenship change, or corrected date of birth), you must provide documents to prove your identity, support the requested change, and establish the reason for the change. For example, you may provide a birth certificate to show your correct date of birth. A document supporting a name change must be recent and identify you by both your old and new names. If the name change event occurred over two years ago or if the name change document does not have enough information to prove your identity, you must also provide documents to prove your identity in your prior name and/or in some cases your new legal name. If you were born outside the U.S. you must provide a document to prove your U.S. citizenship or current lawful, work-authorized status. See page 2 for an explanation of acceptable documents.

LIMITS ON REPLACEMENT SOCIAL SECURITY CARDS

Public Law 108-458 limits the number of replacement Social Security cards you may receive to 3 per calendar year and 10 in a lifetime. Cards issued to reflect changes to your legal name or changes to a work authorization legend do not count toward these limits. We may also grant exceptions to these limits if you provide evidence from an official source to establish that a Social Security card is required.

IF YOU HAVE ANY QUESTIONS

If you have any questions about this form or about the evidence documents you must provide, please visit our website at www.socialsecurity.gov for additional information as well as locations of our offices and Social Security Card Centers. You may also call Social Security at 1-800-772-1213. You can also find your nearest office or Card Center in your local phone book.

Return defective receiver

- Package your old receiver
  - Wrap up the defective receiver and put it in the box the replacement came in. If the defective receiver won't fit in the box, use your own box or call 1-800-531-5000
  - Do not include the satellite dish, payments or correspondence.
  - Include the old access card and remote control without the batteries.
- Apply return shipping label
  - Tear off receipt tab on the bottom of the FedEx return shipping label and keep for your records. Take the top portion and attach it over the original shipping label that came on the replacement shipping box.
- For Pick-up
  - Call 1-800-GO-FEDEX (1-800-463-3339). When you hear the voice system ask for type of service, say **"Representative"** or hit **"0"** on your telephone keypad to speak with a FedEx representative and arrange for a pick-up.
- For Drop-off
  - Call 1-800-GO-FEDEX (1-800-463-3339) or go to fedex.com to find the closest drop-off location, which includes most FedEx Kinko's locations.

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file: many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 8AM to 5:30 PM M-F Pacific Time

E-Mail inst-support@interpage.net

Web. http://www.interpage.net

Thank you for your interest!

Notes: 1 Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages; only the above fixed sample message will be transmitted. You may establish a trial account for subscriptive purposes by filling out the form located at *http://www.interpage.net/sub-fax-trial.html*, omitting any billing information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2 This fax is not a solicitation nor is at an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two faxes in a given week, however. If you find that someone is sending you faxes in a continuous and abusive manner please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

A pre-approved credit card offer is only sent to a well qualified group of people. Being pre-approved means you meet our initial criteria, and your application is likely to be approved for this Platinum Mastercard® card offer. In fact, 9 out of 10 applicants who meet our initial application and income requirements end up getting approved for this card. You will need to complete the application process to determine if all eligibility requirements are met.

This offer says I'm pre-approved. Can I still be declined if I apply?
Yes, it is possible. The fact that you're pre-approved simply means you've met the initial criteria for this credit card offer. Here are some reasons you could be declined after applying for this card:

- You've applied for another Capital One® card 2 or more times in the last 30 days
- You didn't list a physical address on your application (PO Boxes cannot be used)
- You didn't complete all application questions, including providing your Social Security number
- Some of your information from the credit bureau may be missing or unavailable, or your score has changed
- Your credit obligations (such as those reported on your credit bureau report) are too high compared to your income

For more eligibility details and income requirements, please refer to the Account Terms.

Where does my CreditWise® score come from?
The score provided in the CreditWise tool is calculated using your credit report from TransUnion®. We use the TransUnion VantageScore® 3.0 model, which is one of many scoring models used by lenders. Chances are your CreditWise score won't be exactly the same as the one your lender uses, but it will be an accurate measure of your credit health—which is what every lender will be checking in their own way. The availability of the CreditWise tool depends on our ability to obtain your credit history from TransUnion. Alerts and notifications are based on changes to your TransUnion credit report.

How do I apply if I don't have internet access?
You can call us at 1-866-927-5831 to apply for this offer.

The original values for the FreOr Rat are given in yellow and can be used instead of the modified version Care must be taken when installing electrolytic capacitors – polarity must be observed

There are various tweaks that can be applied to the circuit.

R5 This has been added to prevent the Gain pot from being turned completely off This is useful in that you can set the minimum gain (via the value of R5) when the Gain pot is at 0% rotation. this will give more usage out of the gain pot itself
There are two methods to adjust the value of R5 for minimum gain
Socket R5 and try different values – 10kΩ is suggested as a starting point.
The second method is a bit more involved

- Don t install R5, wire lugs 2 & 3 of the Gain pot as usual
- Wire lug 1 of the Gain pot to the right hand (from the layout diagram) pad of R5
- Set the Gain pot to give the desired minimum gain
- Remove the wire from the right hand pad of R5 and measure the resistance between lugs 1 & 2
- Choose the nearest standard value for R5 and solder it to the board

R7 – TR1 This is a version of the Ruetz mod I don't think this mod really warrents an external pot so I have used an on board trim pot If you want to make this mod with an external pot, don't install the trim pot and wire the external pot to the respective pads.
Although a fuller explanation of what this mod does will be given on request on the forum at www.guitarpcb.com, it basically reduces the high frequencies a lot less than the bass and mid frequencies when the gain pot is turned down
The best results will be obtained when the R7 – TR1 value is between 0Ω (a wire jumper) and 100Ω there are several methods to achieve this

Socket R7 and don't install the trim pot Try different values for R7 ranging from a jumper up to 100Ω This is an unsatisfactory method as many people won't have (enough) low value resistors in their parts bin

Install the trim pot and don't install R7. set the trim pot to taste Better than the previous method but it is sometimes difficult to find 100Ω trim pots – Small Bear Electronics does carry them

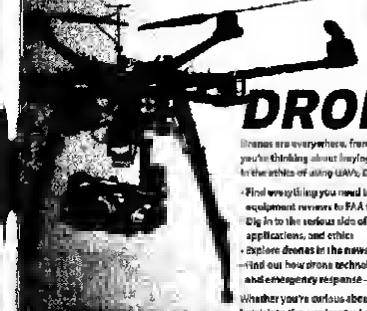
SCIENCE. ETHICS.

All this and more.



DRONE 360

Drones are everywhere, from faraway battlefields to our own backyards. If you're thinking about buying your first personal quadcopter or interested in the ethics of using UAVs, *Drone 360* has you covered!

- Find everything you need to start assembling your own drone, from equipment reviews to FAA flight rules and photography how-tos.
- Dig in to the serious side of drones, including military and law enforcement applications, and ethics.
- Explore drones in the news: The curious, the cool, and the controversial.
- Find out how drone technology will change search and rescue, disaster relief, and emergency response — and how drones can help you.

Whether you're curious about the ethics of drones, looking to break into the quadcopter hobby, *Drone 360* is packed with ideas and information to help you get started!

The Real Facts About Vitamin E and Prostate Cancer

Posted: 10/1/2011 3:58 pm

Does taking vitamin E increase your risk of prostate cancer? If you have seen the new study published in the *Journal of the American Medical Association (JAMA)* about the extended findings of the SELECT trial which stated that vitamin E can increase the risk of prostate cancer, don't panic. There are some important things you should know about the study and about vitamin E before you throw away your vitamin E supplements. The facts about vitamin E are:

- There are eight forms of vitamin E (see below) they are not all the same and evidence to date has shown some forms can help with prevention of prostate cancer
- The SELECT study used only one form of vitamin E -- alpha-tocopherol -- which research indicated years before the SELECT trial even began to be ineffective at preventing prostate cancer unless it was used along with another form of vitamin E, gamma-tocopherol
- The gamma-tocopherol form of vitamin E was shown to be effective at reducing the risk of prostate cancer by researchers at Johns Hopkins School of Public Health before the SELECT trial began.
- Research from 1994 found that alpha-tocopherol robs cells of gamma-tocopherol which is the form of vitamin E that offers more protection against prostate cancer
- Limited studies of the tocotrienol forms of vitamin E have indicated they may also offer some protection against prostate cancer

Therefore to state that vitamin E increases the risk of prostate cancer without explaining the limitations of the study -- including the fact that SELECT used only one form of vitamin E -- is a misrepresentation of what scientists and researchers have discovered about vitamin E and prostate cancer to date.

Yet another source of uncertainty is both the data aggregation and the transmission processes. For example, when viewing a trajectory it is sometimes possible to see outliers, suddenly locating the vessel [illegible] some distance away. These outliers can be [illegible] malfunction of the vessel's system or due to [illegible] transmission errors due to [illegible] conditions are a factor here). We cannot expect to [illegible] and should be taken for granted that corrupt data streams are going to be fed to the system.

These sources of data uncertainty are more or less obvious. What is less obvious is another kind of uncertainty that is due to the way many of the [illegible] documents and forms available on the [illegible] are designed. For example, we have a [illegible] for detecting possible collisions by projecting in the future vessel trajectories and determining whether these future trajectories [illegible] windows. What would happen if we applied this pattern on [illegible] moving in or near ports, constantly maneuvering to approach end dock or leave the port with such a high traffic density, we would simply get a deluge of false positives.

DO WE WANT TO KEEP ADDING PATTERNS TO A SYSTEM?

Within the port context, this behavior should be considered [illegible] (time, etc.) should be changed so that a warning is produced only when there "really" is a danger given the port conditions. But imagine another scenario in which two vessels, away from any ports this time, are indeed on a "collision" course. But they have actually agreed beforehand to meet (e.g. for an inspection) another case of a false projected collision is a [illegible]

Pattern Refinement

One solution to the problem of multiple behaviors satisfying a pattern might be simply to refine the patterns in order to capture all the possible cases. However there are two problems with this approach.

First, such an ad nauseam pattern refinement might not even be feasible, since we might lack the necessary knowledge, especially at the early stages of system deployment.

Second, the question remains whether we want to keep adding patterns to the system for every possible case, given the performance [illegible] they might incur. Early detection of a behavior, based on a possibly not complete pattern could be preferable to a near perfect but delayed (and therefore possibly useless) [illegible] especially for critical situations (this is the case of "better safe then sorry").

Information Classification: General

All the war carriers were designated by [illegible] for Attack (Fighter) and [illegible] and CVS for Anti-Submarine Warfare (A/S). Helicopters are helicopters! Our latest nuclear powered supercarriers are designated CVN

[illegible] has been designated CV, CVA and CVS at different times throughout her 51 years of service to history

Essex class carriers were often named for famous ships or battles in US history How many can you recognize?

The *Lexington, Yorktown, Wasp, Hornet, Princeton* and *Bunker Hill* were all named after aircraft carriers which had been sunk in the [illegible] War

It is a tribute to those who designed, built and served aboard these fine ships that despite numerous and serious damage and casualties, NO ESSEX CLASS CARRIER WAS EVER SUNK BY ENEMY ACTION

Unfortunately, only four of these great ships survive as museums: *Intrepid* in New York City, *Yorktown* in Charleston, SC, *Lexington* in Corpus Christi, TX and *Hornet* in Alameda, CA. The rest have been victim of the scrap yard torch. We are happy that *Intrepid* is still here for you to visit, walk the decks and be able to share a piece of our history

INTREPID'S WORLD WAR II RECORD

Enemy aircraft:

Shot down by carrier groups	257
Shot down by Intrepid gunners	14
Destroyed on the ground	298

Enemy ships:

Sunk	122
Damaged	126

Across 8 VTA locations the company has more than 200 employees that earn some form of incentive income, typically measured and paid on a bi-weekly basis. Managers and a few others are presently being measured and paid on a monthly basis. In addition to these 8 locations, there currently are 3 other locations that might be included at some future date. Although much of the data required to calculate these incentives originates from the VAST system, the process is largely done by various employees, manually reviewing computer generated reports and Excel spreadsheets. In fact the process consists of a number of much smaller non-integrated sub-processes.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855 330-1239 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

A. Kennel cough
A. Pneumonia

Ken nel cough, or infectious tracheobronchitis, is an inflammation of the windpipe, and large airways of the lungs. The cause is usually considered to be a virus, and the disease spreads easily and rapidly from one dog to another. Although younger animals tend to be affected, you will notice the sudden onset of a harsh, deep cough, followed by gagging. Recovery is usually straightforward, which may be necessary for several weeks. Proper vaccination has reduced the incidence of this condition. Although our Bordetella vaccine is good for one year, many kennel facilities require vaccination every six months. Check with your kennel as well as boarding

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Try Fax.com Free
Get an internet fax number that sends and receives faxes online

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1 855 330-1239 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

It made a lot of sense to me that, by moving around all day, everything would flow around your body better.

Together with The Heart Foundation, Professor Dunstan from the Baker Di tru tute has ore fuced a fact sheet of t ps to get you moving more at work:

- Stand and take a break from your computer every 30 m nutes.
- Stand to greet a visitor to your work space.
- Use the stairs instead of the lift.
- Stand during phone cal s.
- Walk to your colleagues desks instead of phoning or emailing.
- Take more wate going to the water cooler and bathroom w ll break up a ting time.
- Keep your bin away from your desk so you have to get up to put rubbish in it.
- Use headsets or the speaker phone during teleconferences so you can stand.
- Eat unch away from your desk.
- Stand at the back of the room during presentations.

For more information on sit ng less and moving more, visit The Heart Foundation website at heartfoundation.org.au.

Professor Dunstan says standing does help to burn ca ories, but r inces depend on the ind v dual and what they are doing. Research recently conducted at the Baker Inst tute found that people who stood burned 13 per cent more calories than those who sat all day. "Wh en it comes to actil" Professor Dunstan says, "because you are using your muscles to maximum potent."

Even regular exercise doesn't cancel out the negat ve effects of sitting all day – the key is to move around as much as possible during the day.

ANDREW JACKSON

State of the Union Address
December 6, 1830

It gives me pleasure to announce to Congress that the benevolent policy of the Government, steadily pursued for nearly thirty years in relation to the removal of the Indians beyond the white settlements is approaching to a happy consummation. . . .

Humanity has often wept over the fate of the aborigines of this country, and Philanthropy has been long, vainly employed in devising means to avert it. But its progress has never for a moment been arrested, and one by one or here many powerful tribes disappeared from the earth. To follow to the tomb the last of his race and to tread on the graves of extinct nations excite melancholy reflections. But true philanthropy reconciles the mind to these visitations as it does to the extinction of one generation to make room for another. In the morning and forenoon of an unknown people, spread over the extensive regions of the West, we behold the monuments of a once powerful race, which was exterminated or has disappeared to make room for the existing savage tribes. Nor is there anything in this which, upon a comprehensive view of the general interests of the human race, is to be regretted. Philanthropy could not wish to see this continent restored to the condition in which it was found by our forefathers. What good man would prefer a country covered with forests and ranged by a few thousand savages to our extensive Republic, studded with cities, towns, and prosperous farms, embellished with all the improvements which art can devise or industry execute, occupied by more than 12,000,000 happy people, and filled with all the blessings of liberty, civilization, and religion?

The present policy of the Government is but a continuation of the same progressive change by a milder process. The tribes which occupied the countries now constituting the Eastern States were invited to and have mostly melted away. Invited even for the whites. The waves of population and civilization are rolling to the westward, and we now propose to acquire the countries occupied by the red men of the South and West by a fair exchange, and at the expense of the United States, to send them to a land where their existence may be prolonged and perhaps made perpetual. Doubtless it will be painful to leave the graves of their fathers; but what do they more than our ancestors did or than our children are now doing? To better their condition in an unknown land our forefathers left all that was dear on earthly objects. Our children by thousands yearly leave the land of their birth to seek new homes in distant regions. Does Humanity weep at these painful separations from everything, animate and inanimate, with which the young heart has become entwined? Far from it. It is rather a source of joy that our country affords scope where our young population may range unconstrained in body or in mind, developing the powers and faculties of man in their highest perfection. These are motives which can not be regarded as visionary, and they must exert an influence in the hearts of all who look forward to the future welfare of our country, without reference to the present generation, or even to many succeeding generations. While some tribes have mingled with our population and become civilized, others have neither the capacity nor the inclination for improvement. Continuing to exist amidst the whites, they are pressed upon by the force of circumstances into the most humiliating and degrading condition, and their degradation is aggravated by the vices to which they are almost inevitably exposed. Independently of the duty which humanity enjoins us to perform, by providing for the removal of these people, strong reasons of a political character are addressed to the patriotism of the country why it should be done. Established as they are within the limits of several States, they can not but look forward to the time when they will be compelled to remove. Impressed with this belief, they are always ready to unite with any power which may offer them the means of gratifying their roving propensities. Thus they have been the instruments, in the hands of a foreign power, of involving us in frequent wars with the States, and will continue to be so. Can it be wise in the United States to permit the longer residence of these people in their present situation? Can it be just to compel the States to extend their laws over them? Can it be expected that the moral sense of the community will not be shocked at the thought of permitting them to govern themselves? All these considerations appeal to the Government of the United States to remove these people, and to do so with their consent. Without their consent it would be unjust, and inconsistent with the principles which will forever govern the conduct of a free people. With their consent, it will be easy, and cannot be long delayed. Toward the aborigines of the country no one can indulge a more friendly feeling than myself, or would go further in proper efforts to promote their welfare. Experience, however, has clearly proved that their condition is hopeless while they remain in contact with a civilized community. In the course of my communications with them, their inquiries have frequently been directed to the point whether they could look forward with confidence to the period when they would be permitted to enjoy unmolested the lands which might be assigned to them forever. Solemn treaties have been made conveying this assurance, and laws have been passed providing for the appointment of officers to watch over their interests. But what power can the President possess to insure the fulfillment of these treaties and laws? Can he keep off the constant encroachments upon their property? Can he protect them from the influence of the avarice, the vices, and the debasing customs of the whites? Can he shield them from the operation of laws not made for their benefit? Can he prevent them from being ultimately destroyed by the stronger race? Surely he can not. Any protection which he can afford them will be inadequate to the end. Their true interest requires that they should be induced to remove. Their present state is deplorable, and their future prospects hopeless. Can it be benevolent to refuse them the opportunity of bettering their condition? Can it be kind to compel them to remain where they must perish? Can it be just to the States to refuse to remove obstructions to the enjoyment of their sovereign rights? Can it be just to the United States to refuse to carry into effect the wishes of the States and the views of the Indians, when the former are willing to pay the whole expense of the removal and support of the latter, when the Indians are anxious to remove, and when the only alternative is their rapid decay and ultimate destruction? Can it be just to the United States to refuse to purchase the lands which the Indians are willing to sell, and which are indispensable to the enjoyment of the States in which they lie? Can it be just to the United States to refuse to purchase lands, to give them a new and extensive territory, to pay the expense of their removal and support, and to guarantee to them forever the peaceful possession of their new abode? These questions have frequently been propounded to me by the Indians themselves. They have been propounded to me by the States. They have been propounded to me by our own citizens. They have been propounded to me by the philanthropic societies of our country. They have been propounded to me by individuals who have no motive but the benevolence which dictates the inquiry. I have felt myself unable to answer them in a manner consistent with my own views of right and duty, and I have therefore left them to be answered by the Indians themselves, by the States, by the philanthropic societies, by the individuals, and by the Government of the United States. Each has answered, or will answer, for itself. I have performed my duty when I have stated the questions. Each has answered, or will answer, for itself. I have performed my duty when I have stated the questions.

Humanity has often wept over the fate of the aborigines of this country, and Philanthropy has been long, vainly employed in devising means to avert it. But its progress has never for a moment been arrested, and one by one or here many powerful tribes disappeared from the earth. To follow to the tomb the last of his race and to tread on the graves of extinct nations excite melancholy reflections. But true philanthropy reconciles the mind to these visitations as it does to the extinction of one generation to make room for another. In the morning and forenoon of an unknown people, spread over the extensive regions of the West, we behold the monuments of a once powerful race, which was exterminated or has disappeared to make room for the existing savage tribes. Nor is there anything in this which, upon a comprehensive view of the general interests of the human race, is to be regretted. Philanthropy could not wish to see this continent restored to the condition in which it was found by our forefathers. What good man would prefer a country covered with forests and ranged by a few thousand savages to our extensive Republic, studded with cities, towns, and prosperous farms, embellished with all the improvements which art can devise or industry execute, occupied by more than 12,000,000 happy people, and filled with all the blessings of liberty, civilization, and religion?

The present policy of the Government is but a continuation of the same progressive change by a milder process. The tribes which occupied the countries now constituting the Eastern States were invited to and have mostly melted away. Invited even for the whites. The waves of population and civilization are rolling to the westward, and we now propose to acquire the countries occupied by the red men of the South and West by a fair exchange, and at the expense of the United States, to send them to a land where their existence may be prolonged and perhaps made perpetual. Doubtless it will be painful to leave the graves of their fathers; but what do they more than our ancestors did or than our children are now doing? To better their condition in an unknown land our forefathers left all that was dear on earthly objects. Our children by thousands yearly leave the land of their birth to seek new homes in distant regions. Does Humanity weep at these painful separations from everything, animate and inanimate, with which the young heart has become entwined? Far from it. It is rather a source of joy that our country affords scope where our young population may range unconstrained in body or in mind,

Dear Parent(s)/Guardian(s)

As our children grow, most of us see charts like the one to the right. Our doctors weigh our children and measure how tall they are. This information is put on a chart like the one to the right. This chart shows where our child stands compared to other children and how fast they are growing. These charts help doctors to understand if our children are growing properly or if something may be wrong, enabling them to do something to help as soon as possible.

Doctors use children's height and weight as "Well Checks", or vital signs of development. We all know how important it is for our children to "grow" in academic areas as well. In fact, successfully learning to read at an early age is probably one of the most important factors in a child's learning, both inside and outside of school.

Because academic growth is so important, on a regular basis our school is going to give you "Well Check" information indicating how well your child is doing in academic areas including reading and math. This information will be given to you three times per year: fall, winter and spring. The "Well Checks" are simple and accurate. We like to think of it as taking your child's academic temperature.

As a school team, we use these "Well Checks" to help plan instruction. This information helps us individualize for students who are above or below average in their reading abilities. We use these tests, our observations, and your child's work in the classroom to plan additional readiness skills instruction (intervention).

Your child's scores are represented by a dot. The box on the graph represents the Average range (between the 25th and 75th percentile). The line extending below the box represents the Below Average range and the line extending above the box represents the Above Average range. The heavy black line with in the box represents the target or expected score for that test. Their actual score is shown in the chart below this graph. Information regarding the specific test(s) administered to your child is given on the following page.

"Public sentiment is everything. With public sentiment, nothing can fail; without it nothing can succeed."

Date Of Service: 07-24-2014

Procedure: Shockwave Lithotripsy

Surgeon: Cicilo Glacy, PA

Patient DOB: 01/01/1984

Patient Name: ripvfasdc

Indications: ripvfasdc is a 30 year old female with a history of nephrolithiasis, currently with a 0.5cm Upper pole, renal stone. Non-Operative management was discussed with the patient. The indications, procedure, and expectations for shockwave lithotripsy were discussed with the patient.

Risks including but not limited to infections, bleeding, hematoma, residual stone, recurrent stone, stone disease, need for further or additional procedures were discussed with the patient and they have asked me to proceed.

Procedures: After appropriate General anesthesia was administered the patient was positioned supine on the lithotripsy table. The stones were localized under fluoroscopy in both anteroposterior and anteroposterior views. A total of 250 were delivered to the 0.5 Upper pole, renal.

Shockwaves were delivered at a rate of 2.35 and 2.35. There was excellent fragmentation of the 0.5 Upper pole, renal. The patient was awakened from anesthesia and taken to the recovery room in stable condition.

Disposition: The patient is to follow up in 1 week.

Deductions and Adjustments Worksheet

Note. Use this worksheet only if you plan to itemize deductions or claim certain credits or adjustments to income.

1 Enter an estimate of your 2012 itemized deductions. These include qualifying home mortgage interest, charitable contributions, state and local taxes, medical expenses in excess of 7.5% of your income, and miscellaneous deductions . . . . . 1 $

2 Enter { $11,900 if married filing jointly or qualifying widow(er) / $8,700 if head of household / $5,950 if single or married filing separately } . . . . . 2 $

3 Subtract line 2 from line 1. If zero or less, enter "-0-" . . . . . 3 $

4 Enter an estimate of your 2012 adjustments to income and any additional standard deduction (see Pub. 505) . . . . . 4 $

5 Add lines 3 and 4 and enter the total. (Include any amount for credits from the *Converting Credits to Withholding Allowances for 2012 Form W-4* worksheet in Pub. 505.) . . . . . 5 $

6 Enter an estimate of your 2012 nonwage income (such as dividends or interest) . . . . . 6 $

7 Subtract line 6 from line 5. If zero or less, enter "-0-" . . . . . 7 $

8 Divide the amount on line 7 by $3,800 and enter the result here. Drop any fraction 8

9 Enter the number from the **Personal Allowances Worksheet**, line H, page 1 9

10 Add lines 8 and 9 and enter the total here. If you plan to use the **Two-Earners/Multiple Jobs Worksheet**, also enter this total on line 1 below. Otherwise, stop here and enter this total on Form W-4, line 5, page 1 10

Two-Earners/Multiple Jobs Worksheet (See *Two earners or multiple jobs* on page 1.)

Note. Use this worksheet only if the instructions under line H on page 1 direct you here.

1 Enter the number from line H, page 1 (or from line 10 above if you used the **Deductions and Adjustments Worksheet**) 1

2 Find the number in **Table 1** below that applies to the **LOWEST** paying job and enter it here. **However**, if you are married filing jointly and wages from the highest paying job are $65,000 or less, do not enter more than "3" 2

3 If line 1 is **more than** or **equal to** line 2, subtract line 2 from line 1. Enter the result here (if zero, enter "-0-") and on Form W-4, line 5, page 1. Do not use the rest of the worksheet 3

Note. If line 1 is **less than** line 2, enter "-0-" on Form W-4, line 5, page 1. Complete lines 4 through 9 below to figure the additional withholding amount necessary to avoid a year-end tax bill.

4 Enter the number from line 2 of this worksheet 4

5 Enter the number from line 1 of this worksheet 5

6 **Subtract** line 5 from line 4 6

7 Find the amount in **Table 2** below that applies to the **HIGHEST** paying job and enter it here . . . . . 7 $

8 **Multiply** line 7 by line 6 and enter the result here. This is the additional annual withholding needed . . . . . 8 $

9 Divide line 8 by the number of pay periods remaining in 2012. For example, divide by 26 if you are paid every two weeks and you complete this form in December 2011. Enter the result here and on Form W-4, line 6, page 1. This is the additional amount to be withheld from each paycheck . . . . . 9 $

POOH BEAR LOVES POENIES

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

*** Solution ***

The machine cannot detect a WLAN access point/router that has WPS or AOSS enabled

If you would like to connect with WPS or AOSS, you must operate both your machine and the WLAN access point/router
Confirm the connection method for WPS or AOSS on WLAN access point/router and try starting again.

If you do not know how to operate your WLAN access point/router using WPS or AOSS, see the documentation provided with your WLAN access point/router, ask the manufacturer of your WLAN access point/router or ask your network administrator.

The **Republican Party** (also called the **GOP**, for "Grand Old Party") is one of the two major contemporary political parties in the United States, along with the Democratic Party. Founded by anti-slavery activists in 1854, it dominated politics nationally for most of the period 1860-1932. 18 presidents have been Republicans. The most recent Republican president was George W. Bush.

Currently the party's platform generally reflects American conservatism in the U.S. political spectrum.[1][2][3] American conservatism of the Republican Party is not wholly based upon rejection of the political ideology of liberalism, as many principles of American conservatism are based upon classical liberalism.[4] Rather the Republican Party's conservatism is largely based upon its support of classical principles against the modern liberalism of the Democratic Party that is considered American liberalism in contemporary American political discourse.[4]

In the 112th Congress, elected in 2010, the Republican Party holds a majority of seats in the House of Representatives and a minority of seats in the Senate. The party currently holds the majority of governorships as well as the majority of state legislatures.

Unfortunately, because choosing a home-spa dealer usually means choosing a brand, it's tough to do side-by-side comparisons. Just as a Ford dealer is unlikely to recommend a Nissan, spa dealers must convince you that their product is superior. So the best strategy is to learn the vocabulary and know what questions to ask.

First of all, hot tubs, spas and whirlpool baths are three different things.

Spas, the focus of this report, are usually made of acrylic and are mainly used outdoors on a patio or deck. They can be installed indoors with some structural planning. Spas have molded seats shaped like a bench, chairs or loungers. Since water in a spa remains in the tub even when it's not being used, you need pool-type chemicals along with a filtering system to combat bacteria.

Hot tubs are also mainly for outdoor use, but are made of wood (sometimes with a liner) and don't have permanent seating. Hot tubs usually feature a simple bench all around the interior of the tub, but are often custom-made to the buyer's specifications. Both home spas and hot tubs feature the customary jets, but spas are more popular. Again, the water stays in the tub when not in use, and chemicals are required.

Whirlpool baths are bathtubs with a jet pump attached; they're installed in your bathroom where a regular tub would be. You fill them each time you bathe, and then turn on the jets to get the bubbles going. Since the tub is drained with each use, you don't need any special chemicals. We address whirlpool baths in the Alternative Considerations section of this report.

A Jacuzzi is actually not a type of spa, but a brand. The Jacuzzi brand name is one of those words that took on broader meaning, much in the way that the word "Clorox" is used to imply any kind of cola. Jacuzzi, the company, makes both home spas and hot tubs.

So, that said, what are the best home spas? Marquis is one of the most

Thank you very much for your inquiry. Our Search Engine found the following Solution from our Solution Database that matches with your Problem description.

Description of Problem 100000019271

how do I download and install the full driver and software package for Windows 7 using a wireless network connection?

Description of Solution 100000019273

I. DOWNLOAD THE FULL DRIVER AND SOFTWARE PACKAGE

For instructions on how to download the software, refer to the solution "How do I download the Full Driver and Software Package?"

II. JOIN THE BROTHER MACHINE TO THE WIRELESS NETWORK

1 Click here for instructions on how to join the Brother machine to an Infrastructure Network. (Connected to a computer through an Access Point/Router Recommended)
2 Click here for instructions on how to setup the Brother machine on an Ad Hoc network. (Connected directly to a wireless capable computer without an Access Point/Router)

III INSTALL THE FULL DRIVER AND SOFTWARE PACKAGE

1 On the computer click on **Start** ➔ **Computer**

2 Double click on your **Local Disk Drive** (ex Local Disk (x), where 'x' is the letter of your local hard drive)

3. Locate the folder you created earlier labeled **BrotherXXX XXXX** and double click on it.

4 Double click on the folder that was created during the decompression

5 Double click on your model

6. Double click on **"Setup.exe"**

7. Choose your Country/Language and click **OK**.

WARNING! US English speakers should select **USA**, not ENG.

8. On the **License Agreement** page click **YES** if you agree to the terms.

9, is not automatic. It is manually entered as before 9 + area + number
No idea what the fax rate is set to. Old fax machines, so whatever rate it is, would be slow. Each one might even be different, as they are different models.
Testing Internally, dialing 9 and 10 digit number (outside to inside)
Externally, they are able to receive faxes from outside folks, unable to SEND to anyone. Internally, we're unable to test from device to device or floor to floor or between departments in the building on the same cisco system
No other analog lines in the building that I can access, all were switched over to with the new cisco equipment a few months ago

Setup for Fax Reception

Read this manual after finishing the operation of **Getting Started**.
To use the fax features of the machine, you can enter the fax settings through the **Easy setup**.

Using Easy setup

Press the **MENU** button, then select in the order of **Setup** > **Device settings** > **FAX settings** > **Start Easy setup** or **Easy setup** > **OK** button or **Start setup**

Use the ▲▼◀▶ button to select the item, then press the OK button.

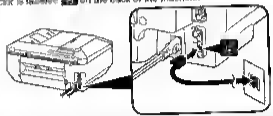
Easy setup starts up.
Follow the on-screen instruction to complete the settings in accordance with the operating environment.

Complementary Information about Fax Setting Using Easy setup

Connecting a Telephone Line

Connect the machine to a telephone jack with the supplied telephone line cable.

The connector is labeled on the back of the machine.

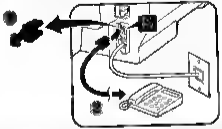


- **A basic connection method is shown in this figure. For other connection methods, refer to the Online Manual.**
- **Users in Europe: If you prepare your own telephone line cable, be sure it is a 6-wire telephone line cable.**

Connecting a Telephone or an Answering Machine

When connecting a telephone or an answering machine, remove the Cap, then connect a telephone or an answering machine with a telephone line cable.

The connector is labeled on the back of the machine.



- **Do not use a telephone jack like duplexer.**
- **Users in UK: Use a BT adapter for connection as required.**

Receive Mode Settings

Refer to the **Online Manual** to enter the settings.

Other Fax Settings

Refer to the **Online Manual** to enter the settings.

- **DRPD is available only in US and Canada.**
- **Network switch may not be available depending on the region or country.**

For the details of other settings, refer to the Online Manual.

SUFFER TO LIVE

FIELD DAY REMINDERS
DATE OF FIELD DAY-Thursday June 5th
RAIN DATE-Tuesday June 6th

Dear Martin Families~

1. Field day will run approximately from 9 30-2/2 30pm Kindergarten students will participate from approximately 9:30-12 00 and then join us again at approximately 1 30 for ribbons and popsicles.
2. Please remember on Field day to wear comfortable clothes to school. We want all of the students to participate and have fun!
3. Students NEED to wear sneakers in order to participate in the events!
4. If at all possible, please have students wear their grade/team color which is listed below

Kindergarten.	**White**
Grade 1.	**Purple**
Grade 2	**Orange**
Grade 3	**Yellow**
Grade 4.	**Green**
Grade 5.	**Pietkevich Red Eichenauer Blue**

5. Since it will be warm and sunny please remember to put sun screen on at home before you come to school
6. Hats can and should be worn to help with the sun and heat. Please make sure to have your name on the lip of your hat in case it becomes misplaced.
7. Students are also allowed to bring a water bottle with water and their name on it. Any other drinks are not allowed because they will attract bees.
8. Parents are welcome to join their students for lunch on field day. If you are ordering a bagged lunch for you and/or your child, lunch order forms are due into the office this week! All money for lunches will be collected on Field Day or you may use existing money in your child's lunch account. Please stay in the lunch area during lunch so we know where all the children are at all times.
9. If the event has to be postponed due to weather, the decision will be made by 7 30A.M. that morning. We will place something on our school website as well as try to contact room parents to help let others know. As always, you can call the school at 860-647 3367
10. **No dogs or other pets are allowed at this event.**
11. Most important, come ready to have tons of fun! I look forward to a GREAT day

All the Best,

Mrs Bonneau

Information About Commercial General Liability Insurance Single Family Home

Pursuant to California Business & Professions Code §7164 (SB 2029) contractors building single-family residences for owners who intend to occupy the home for at least a year must provide this notice and disclose whether or not they carry commercial general liability insurance.

Did your contractor tell you whether he or she carries Commercial General Liability Insurance?

Contractors building single-family residences for owners who intend to occupy the home for at least a year are required by law to tell you whether or not they carry Commercial General Liability Insurance. This written statement must accompany the contract

What does this insurance cover?

Commercial General Liability Insurance can protect against third-party bodily injury and accidental property damage. It is not intended to cover the work the contractor performs.

Is this insurance required?

No. But the Contractors State License Board strongly recommends that all contractors carry it. The Board cautions you to evaluate the risk to your family and property when you hire a contractor who is not insured. Ask yourself, if something went wrong, would this contractor be able to cover losses ordinarily covered by insurance?

How can you make sure the contractor is insured?

If he or she is insured, your contractor is required to provide you with the name and telephone number of the insurance company. Check with the insurance company to verify that the contractor's insurance coverage will cover your project.

What about a contractor who is self insured?

A self-insured contractor has made a business decision to be personally responsible for losses that would ordinarily be covered by insurance. Before contracting with a self-insured contractor, ask yourself, if something went wrong, would this contractor be able to cover losses ordinarily covered by insurance?

(CONTRACTORS NAME) does not carry Commercial General Liability Insurance

(CONTRACTOR'S NAME) carries Commercial General Liability Insurance

The insurance company is (INSURANCE CO'S NAME)

You may call the insurance company at (TELEPHONE NUMBER) to verify coverage

For more information about Commercial General Liability Insurance, contact the Contractors State License Board at www.cslb.ca.gov or call 800-321-CSLB (2752).

Creamy Chicken Noodle Soup

Recipe courtesy Sandra Lee

Prep Time	15 min	Level:	Serves:
Inactive Prep Time	--	Easy	8 servings
Cook Time:	8 hr 0 min		

Ingredients

- 1 store-bought roasted chicken
- 1 cup diced onions
- 1 cup diced celery
- 1 cup diced carrot
- 4 (14-ounce) cans low-sodium chicken broth
- 2 (10.75-ounce) cans condensed cream of mushroom soup with roasted garlic
- 2 tablespoon fines herbes*
- Salt and pepper
- 2 cups egg noodles, cooked

Directions

Remove the skin from the chicken and shred the meat from the bone. Put the chicken into a slow cooker along with the onions, celery and carrots. Stir in broth, mushroom soup, and fines herbs and season with salt and pepper. Cover and cook on high setting for 3 to 4 hours or the for 8 to 9 hours

When soup is finished, stir in egg noodles. Adjust seasonings and serve.

*Cook's Note: Fines herbs are a classic blend of herbs that usually consists of chervil, chives, parsley and tarragon. Fines Herbs can be found pre-blended in the spice section of the grocery store.

RightFAX v7.0

Using NT Security Authentication

RightFAX servers can take advantage of your network's established Windows NT security system by linking each RightFAX User ID to an NT user account. When logging into client applications that require authentication (such as Enterprise Fax Manager and FaxUI), RightFAX automatically attempts to validate based on the NT account name and password with which you are currently logged in. If the current NT account name and password have been linked to a RightFAX User ID, that RightFAX ID is used to log in. If no RightFAX user account is linked, a dialog opens prompting you to manually enter your RightFAX user name and password. Each user's link status is displayed under the **NT Account Link Status** column in the user list in Enterprise Fax Manager:

- *N/A* means that the user is not required to log in via NT authentication. (This user will be allowed to log in manually)
- *No NT Account Assigned* means that the user is required to log in via NT authentication (described below) but is not linked to an NT account.
- *NT Account Assigned* means that the user is required to log in via NT authentication and is linked to an NT account. This RightFAX ID can only be accessed when the user is logged into the desktop as the linked account.

Requiring NT authentication

To require a RightFAX client to log into its RightFAX client applications via Windows NT authentication, edit the User ID in Enterprise Fax Manager and check the **Use integrated NT Security** option on the **Identification** tab.

Linking RightFAX User IDs to NT accounts

RightFAX Enterprise provides several methods for linking one or more RightFAX User IDs to existing NT accounts.

To link a RightFAX User ID

1. Edit the user properties in Enterprise Fax Manager.
2. Click the **Identification** tab.
3. Click the **Link to NT Account** button.
4. Type or select the NT domain and account names to link and click **OK**. The linked domain and account name will be listed under the **RightFAX User ID** on the **Identification** tab. You can only use the **NT account lookup** feature when you are running Enterprise Fax Manager on the RightFAX server or a Windows NT workstation.

To automatically link one or multiple existing RightFAX User IDs

1. In the Enterprise Fax Manager user list, select one or more RightFAX users.
2. Right-click any selected user and select **Link to NT Accounts**. RightFAX automatically links each selected User ID to the matching NT account in the domain you are currently logged in to. If there is no matching NT account name in the current domain, no link is created.

To automatically link all new User IDs

Because all new RightFAX User IDs created in Enterprise Fax Manager use the Default User ID as a template, you can configure the Default User ID so that all new User IDs automatically link to NT accounts:

1. In Enterprise Fax Manager, edit the **Default User ID**.
2. Click the **Identification** tab and check the option **Use Integrated NT Security**. Click **OK**. For each new User ID you create in Enterprise Fax Manager, RightFAX will automatically link the User ID to the matching NT account in the domain you are currently logged in to. If there is no matching NT account name in the current domain, no link is created.

Duties to REALTORS®

Where the word REALTORS® is used in this Code and Preamble, it shall be deemed to include REALTOR ASSOCIATE®s.

While the Code of Ethics establishes obligations that may be higher than those mandated by law or in any instance where the Code of Ethics and the law conflict, the obligations of the law must take precedence.

Preamble

Under all is the land. Upon its wise utilization and widely educated ownership depend the runk that it growth of free institutions and of our civilization. REALTORS® should recognize that the interests of the nation and its citizens require the highest and best use of the land and the wisest distribution of land ownership. They urge the creation of adequate housing, the building of functioning cities, the development of productive industries and farms, and the preservation of a healthful environment.

Such interests impose obligations beyond those of ordinary commerce. They impose grave social responsibility and a perpetual duty to which REALTORS® should dedicate themselves, and for which they should be diligent in preparing themselves. REALTOR® therefore are zealous to maintain and improve the standards of their calling and share with their fellow REALTORS® a common responsibility for its integrity and honor.

In recognition and appreciation of their obligations to clients, customers, the public and each other, REALTORS® continuously strive to become and remain informed on issues affecting real estate and, as knowledgeable professionals, they will only share the fruit of their experience and skill with others. They identify and take steps, through education, to correct conditions which might otherwise harm the public or reflect adversely on the real estate profession. REALTORS® having direct personal knowledge of conduct that may violate the Code of Ethics involving misappropriation of client or customer funds or property, willful discrimination, or fraud resulting in substantial economic harm, bring such matters to the attention of the appropriate Board or Association of REALTORS® (Amended 1/29)

Teeth Whitening

Imagine having whiter teeth for a special occasion or just everyday pleasure?

At Cosmetic Laserbeam we proudly offer our clients BleachBright, a revolutionary teeth whitening system that whitens teeth at the speed of light. In just 30 minutes your teeth will be two to eight shades whiter. This is safe, effective and painless teeth whitening suitable for virtually all smiles.

Developed in Europe the BleachBright uses a combination of a special LED light, a super-oxi whitening formula and an advanced whitening accelerator to safely brighten your teeth. A flexible mouth mouthpiece, lined with a special whitening agent is positioned against your upper and main teeth. Once in place, a patented operations that LED light is focused directly onto the mouthpiece for 20 minutes. The mouthpiece then dries on a tank, activating the whitening agent to brighten your teeth.

Others with heavily discoloured teeth will notice a marked variation in the positioned of their teeth immediately. And people with relatively white teeth can increase their intensity by achieving radiant teeth. When used together with regular dental visits and proper oral hygiene, BleachBright can maintain a beautiful, sparkling smile for up to two years.

The results is completely safe. The light is known as a cold light, therefore there is no heating or burning. After the treatment, you can eat and drink as normal, supported to prevent unnecessary staining, we recommend you avoid drinks, like coloured soft drinks, red wine and berries for the first 24 hours.

Why not join with one of extraordinarily located Sydney clinics to booked teeth whitening at the speed of light?

As previously [illegible] cards in a [illegible] have rectangular computer [illegible] yields density cards corresponding to densitometer density [illegible] It also results in improved E.D.P. operations, because [illegible] through a separate communication program [illegible] noted. In any case, cards can read [illegible] punched, while the average of ten [illegible]

If proposed change [illegible] system is that when density cards [illegible] is requested, plastic density [illegible] are punched out. In the normal case there would simply be the average density. If the regular cards fail for [illegible] conversion, it would be the N.W.D densities [illegible] are punched out. If the test breaks down, only because of [illegible] check failure, we would get cards punched out for individual [illegible] since density cards are plotted in this case.

I would appreciate your comments on [illegible] proposal by January 2, 1971.

November 17, 2012 Sebastopol CERT Communications Group Drill

The Purpose of this drill is to expand team competence and operational effectiveness. There are two core functions and responsibilities of the Communications Group: 1) Provide real time information about the streets and neighborhoods of the City, and 2) Provide radio communication between CERT Command and specialty CERT teams operating within the City.

The principle elements of this drill are

1) Message handling - from neighborhoods, through Division Anchors, to Net Control – then prioritized and forwarded to Sebastopol Fire Department (or designee). The last link will be simulated.
2) Net control operations - to include management of frequencies, equipment, personnel, traffic and message handling.
3) Comm Group Leader to manage second frequency communication between specialty teams and tactical information from Division Anchors.

Timing

0900 Core Team Arrives
- Hospitality—Mary Nordstrom
- Public Information Officer – Skip Jarnis

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord: so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur

This is management s discussion and analysis (MD&A) of Crimson Bioenergy Ltd s consolidated operations cashflows, and financial condition for the period ended December 31, 2012 This MD&A prepared as of April 29, 2013, should be read in conjunction with the audited consolidated f inancial statements of Crimson Bioenergy Ltd (formerly called Crimson Falcon Capital Corp) and the notes thereto for the period ended December 31, 2012 which are located on SEDAR at www.sedar.com.

As used in this MD&A, the terms "Company", "Crimson" "us", "our" and "we" includes the consolidated operations of Crimson Bioenergy Ltd. and its subsidiaries. CSQ Env ronmental Technologies Ltd ("CSQ") and CSQ Biomass Fuels Inc ("Biomass"). Biomass is an inactive subsidiary and was dissolved on May 21 2012

In October 2011 the Company acquired all of the issued and outstanding shares of CSQ (the "Transaction"). Following the Transaction the shareholders of CSQ owned approximately 77% of the outstanding shares of Crimson Therefore the Transaction has been accounted for as a reverse takeover with CSQ being considered the acquirer Due to the application of reverse takeover accounting rules, this MD&A is based on the takeover acquirer s (CSQ s) financial statements. See note 3 in the financial statements for the period ended December 31, 2012 for additional information on the accounting procedures for the reverse takeover Concurrent with closing of the Transaction the Company changed its name to "Crimson Bioenergy Ltd." and its stock symbol to "CSN"

The audited consolidated financial statements for the year ended December 31, 2012 have been prepared in accordance with International Financial Reporting Standards ("IFRS") All amounts in this MD&A and the Company's financial statements are n Canadian dollars, except where otherwise noted

Additional information relating to the Company including the most recent Company filings, can be located on SEDAR at www.sedar.com

FORWARD-LOOKING INFORMATION

This discussion includes certain statements that may be deemed "forward-looking statements." All statements in this discussion, other than statements of historical facts, that address events or developments that the Company expects are forward-looking statements Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements Factors that could cause actual results to differ materially from those in forward-looking statements include continued availability of capital and financing and general economic, market or business conditions Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements.
R sks that could cause the Company s actual results to materially differ from its current expectations are discussed throughout this MD&A and, in particular, in *Risks Factors and Uncertainties* set out below

Forward all incoming calls to another phone number with Call Forwarding or designate certain incoming phone numbers to be forwarded with Selective Forwarding

How you forward calls depends on your Comcast subscription, but in general you can use your home phone or go online

Note: For Call Forwarding and Selective Forwarding, enter 1 plus the area code if it is necessary to call the "forward to" number. When you create a Selective Forwarding list, enter the area code plus the 7-digit number for all numbers (both local and long-distance)

IRRHFSU Enhancements

IRRHFSU is a free, unsupported IBM utility that creates a text file (called a Unix File System file) and directory File Security Packets (FSPs) which the IRRDBU00 does for the RACF database.

RSH has been using IRRHFSU extensively with efforts to replace UPX DEFAULT USER and ejuser mention on enhancements that the utility's author Bruce Wells helpfully implemented (*Many thanks, Bruce!*) IRRHFSU now provides the ability to list the file system subtree where the Unix file or directory resides, the contents of symbolic and external links and a new record 0904 with the characteristics of each mounted file system. The newest version is dated October 19, 2012.

IRRHFSU is available for download via the RACF homepage on the IBM website, which you can reach by entering URL http://www.ibm.com/racf. Go to Resources tab and then the Download link.

For tips on using IRRHFSU, visit our website to see our presentation on this utility.

Group GID(0)

Unlike UID(0), GID(0) does not grant any special privileges. However, when a Temporary File System (TFS) is mounted and mounted, GID(0) is automatically defined as the GROUP in the File Security Packet (FSP) with full new permissions. RSH recommends creating a group with a GID(0) as a placeholder for the TFS GROUP.

As to how to use the Supplementary Toolkit for IBM Rented Tools for z/OS, which contains the setfsp command discussed in the January 2013 issue of our newsletter), a GID(0) group is created and will be made the FSP GROUP on the subject file.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in running your HP Fax machine using the HP Fax Test Service.

Print this document so that you can refer to it during the Fax Installer Verifies test in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature at most sites. Many phone company packages are geared for fax modems or fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set fax automatic reports options to Every Error Issues (depending on your fax). This way, even if the sent fax fails, an error sheet will be generated that will guide you to where troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page (text) test letter fax to 1 888 Welcome (1 888 4-5-3663)
2. When your fax is received by the HP Test Fax Server, we will automate a return fax to you within one minute, confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for contact help and configuration.

NOTE: The total document count of faxes at the Fax Test Server is set at five. If the number on the reporting page that confirms the number of the faxes sent, returned to the fax, plus, equals five, the fax has been received at the test. To clear the fax count of the fax machine, follow the directions

Analyzing Time Series Cross-Sectional Data with the PANEL Procedure

Jan Chvosta and Donald Erdman, SAS Institute, Cary, NC

ABSTRACT

A brief theoretical overview of methods available to analyze time series cross-sectional (panel) data is provided. The PANEL procedure in SAS/ETS® software is used to demonstrate the implementation of these methods in SAS®. An empirical example is given to compare different techniques and demonstrate the PANEL procedure's capabilities. Dynamic panel methods are discussed and compared to other techniques. Finally, the PANEL procedure is compared to other SAS procedures, such as the MIXED procedure and the TSCSREG procedure.

INTRODUCTION

In recent years, estimation techniques that use time series cross-sectional (panel) data approaches have become widely used. The PANEL modelname in SAS/ETS software fits classes of linear models that arise when time series and cross-sectional data are combined. It is capable of fitting the following models:

- one-way and two-way models
- random-effects and fixed-effects models
- autoregressive and moving average models
  - Parks method
  - dynamic panel method (GMM)
  - De Silva model

This paper uses simulated data to compare these techniques and outline their advantages and disadvantages. The paper starts with a brief theoretical overview of panel data methods. Several examples are given to demonstrate these techniques and their implementation in the PANEL procedure. The PANEL procedure is then compared with other SAS procedures.

PANEL MODELS

In this paper, the term *panel* refers to pooled data on time series cross-sectional series. Typical examples of panel data include observations on households, countries, firms, years, etc. For example, in the case of survey data on household income, the panel is created by repeatedly surveying the same households in different time periods (years). The series is typically written in the following form:

$$y_{it} = \alpha + X_{it}\beta + u_{it} \qquad i = 1, \ldots, N;\ t = 1, \ldots, T \tag{1}$$

where y_{it} is the response of household i at time t, $u_{it} = \mu_i + v_{it}$, $\mu_i \sim IID(0, \sigma_\mu^2)$ and $v_{it} \sim IID(0, \sigma_v^2)$. Often, the future is correlated with the past. It is easy to imagine that the household's income in time period t is related to its past realizations (income in time period $t-1$).

$$y_{it} = \alpha + \delta y_{it-1} + X_{it}\beta + u_{it} \qquad i = 1, \ldots, N;\ t = 1, \ldots, T \tag{2}$$

Even though the dynamic nature of the series reflects the real relationship between the independent and dependent variables more accurately, the introduction of the lagged dependent variable can pose a variety of problems. Given the model structure, the dependent variables y_{it} and y_{it-1} are functions of μ_i, and estimation using ordinary least squares (OLS) will result in biased, inefficient, and inconsistent estimates. As discussed by Baltagi (1995), since models specifically designed for panel data also suffer from efficiency issues. This paper uses the PANEL procedure to demonstrate series that might arise with a model that is dynamic in nature. ODS Graphics plots are used to demonstrate results from various models.

found in the dash or compartment in your sportster. well)

With engine running and all passenger doors closed starting at 0 turn ot wipers to #3 position. then put the switch in it a 0 position then put it in the sunny #1 (rain sensor position) then have someone splash water on the windshield as the doors have to be closed to reset this function Then they should function normally

Resetting Adaptive Transmission

Turn the Key to the "on" position (the position right before you start your engine)
Press and hold your gas pedal down for like 5 seconds
Turn Key to "off" position (don't remove the key) and then release the gas pedal.
The transmission only 2 minutes. Your transmission will readjust (relearn your style) approximately 5 minutes of driving.

Crochet Cuffed Baby Booties Pattern

I started playing around with my Crochet Rain Boots pattern and adapted it into these cute little cuffed booties! Enjoy the the pattern and be sure to follow my instructions on where to start, end and join your rounds since it is different than the rain boots pattern!

Always begin your rounds in the same stitch as your chain

THE REASON WHY MAGIC JACK DOESN'T COMPLETE SENDING AND RECEIVING FAXES is because window's firewall and your router's firewall (if you have one in place) filter the UDP traffic packets and this results in a "clicking" sound when you are on a call. This line noise causes the call to drop and faxes to send or receive incompletely!

TO RESOLVE THIS open your windows firewall via control panel and add 2 ports as follows (opening 2 ports) The first port - name it MJ1 it uses port number 5060 and passes UDP traffic (not TCP) The second port - name it MJ2 it uses port 5070 and passes UDP traffic (not TCP) THEN reboot your computer with the Magic Jack device plugged in. Then try HR's faxback number (Google it) toll-free to send and receive a confirmation fax

If you have a HOME ROUTER attached to your DSL, Fios, or Cable modem, go to a command prompt (start>run>cmd>enter>click ok) and then type in "ipconfig /all" (without the quotes) at the command prompt. As the results scroll down the screen use the right scroll bar (drag with your mouse) up through the results and write down your IP v4 address as well as your Gateway address (### ### ## ##). Then you can open a web browser, type in your "Gateway" address as follows: http://### ### ## ## (substitute the pound signs with the actual numbers) and then hit enter. Your router will prompt you for the username and password you should have this, or you can Google the default for your brand and model of router. Inside your router's config, open the 2 ports (5060 and 5070 for UDP traffic). If the router's config looks for a "range" of ports (### to ###), enter 5060 to 5060 and 5070 to 5070. The port forwarding (under games and applications heading for Linksys) will ask you for an IP address of where to forward the ports to - enter your computer's IP v4 address that you wrote down from the DOS prompt.

EXTRA TIPS/TIPS

If you are trying this with a dial up connection it won't work. If you still have faxes failing - try to close all open web browsers and stop any active downloads or streaming internet content while faxing. If you are trying to do this via a wireless connection: 1) set your router's wireless channel to any other besides channel 6; 2) move your computer closer to your wireless router; 3) I wouldn't recommend having your fax machine connected to your wireless router via USB; 4) I don't work well with your neighbor's wireless; 5) a wired connection in your router works best; and 6) A usb ethernet dongle (device) won't work well either. If you take your laptop on the go and then bring it back home and connect to your wired or wireless connection, your IP v4 address might change - if it does, run the ipconfig /all command again, write down your IP v4 address, go into your router's config (in your web browser), log in, and then change the 2 UDP ports (5060 and 5070) to forward to your new IP v4 address. You will probably have to put checks in the boxes by the appropriate forwarded ports in your router's configuration, and then click "Save" button at the bottom of the port forwarding page to "activate" your forwarded ports. Then reboot.

SUCCESS STORY

Wave I tried this - yes - and I was successfully able to send and receive a 1 page fax (from HR's faxback service) from my home on a wired connection, and at the truckstop via their wireless hotspot! EQUIPMENT USED: HP's compaq presario v6000 w/ XP Home, SP3, 4 GB of ram, HP Officejet j4660 All-in-One printer/fax/scanner, Magic Jack device, 802.11 g wireless connection, and a USB 2 cable to connect the printer to the laptop.

Sleazy new debt-collector tactics

It may not be your deal but it could be your problem. Collection agencies are bullying blameless consumers into paying debts they never owed

By Liz Pleasants Weston

Lisa Burks isn't Lisa Sterns, but Allied Interstate refused to believe her

The Minneapolis collection agency repeatedly called Lisa and her husband Michael, according to a lawsuit filed by the Minnesota attorney general, and demanded that the couple pay a debt owed by one Lisa Sterns. The couple, just as repeatedly, told the collector they didn't know any Lisa Sterns and asked the company to stop calling.

Allied ignored the couple's requests. At one point, the collector insisted that the Burks were lying or if Lisa Burk were not Lisa Sterns, that she knew Sterns and could tell Allied Interstate where to find her. It took intervention by the attorney general's office for the calls to finally stop.

The Burks' experience with abusive collection agency tactics was annoying. Paul Alappat's encounter with a collector was expensive.

Alappat, a dentist, was called two or three times by Buffalo, N.Y., collection agency Capital Management Services about a Chase Bank credit card debt. Alappat told the collector he had never possessed a Chase Bank card and asked them to stop calling him.

When he applied for a home equity loan two years later, however, the collection showed up on his credit report. His lender told him that if the $394.74 owed were not resolved, the loan couldn't be made.

"Since I was in a hurry to get the loan approved," Alappat said, "I paid the full amount, including the interest."

The Right to Work: A Fundamental Freedom

Mark Mix
President, National Right to Work Legal Defense Foundation

MARK MIX is president of the National Right to Work Legal Defense Foundation, as well as of the National Right to Work Committee, a 2.2-million member public policy organization. He holds a B.A. in finance from James Madison University and an associate's degree in marketing from the State University of New York. His writings have appeared in such newspapers and magazines as the *Wall Street Journal*, the *Washington Times*, the *Detroit Free Press*, the *San Antonio Express-News*, the *Orange County Register* and *National Review*.

The following is adapted from a lecture delivered at Hillsdale College on January 31, 2011, during a conference co-sponsored by the Center for Constructive Alternatives and the Ludwig von Mises Lecture Series.

Boeing is a great American company. Recently it has built a second production line—its other is in Washington State—in South Carolina for its 787 Dreamliner airplane, creating 1,000 jobs there so far. Who knows what factors led to its decision to do this? As with all such business decisions, there were many. But the National Labor Relations Board (NLRB)—a five-member agency created in 1935 by the Wagner Act (about which I will speak momentarily)—has taken exception to this decision ultimately based on the fact that South Carolina is a right-to-work state. That is, South Carolina, like 21 other states today, protects a worker's right not only to join a union but also to make the choice not to join or financially support a union. Washington State does not. The general counsel of the NLRB, on behalf of the International Association of Machinists union, has issued a complaint against Boeing, which, if successful, would require it to move its South Carolina operation back to Washington State. This would represent an unprecedented act of intervention by the federal government that appears, on its face, un-American. But it is an act long in the making, and boils down to a fundamental misunderstanding of freedom.

Where does the story begin?

MR

- vSphere optimizes virtual machine I/O by using the SCSI UNMAP command to free storage space. However, it can affect the operation of certain thin-provisioning arrays, such as Dell EqualLogic and Hitachi Dynamic Provisioning. Workaround: Do not use unnecessarily powered-on file and move pool and a large full clone pool file at the same time as the same SCSI array. Especially the space reclamation. Similarly, do not configure a large clone pool to share a SCSI array with a full clone pool file as the space reclamation of large full clone pool.
- Linked clones that use Dell EqualLogic storage might become unusable when space is running low. Symptom: Linked clones that use Dell EqualLogic storage might become unusable when space is running low. Linked clones created by this issue are unable to log in to the operating system, and the virtual machine returns a boot error message. Workaround: Changing SCSI type during a reconfigure to paravirtualized operation.

Upgrade Issues

- The VMware vSphere Update Manager 5.1 installer writes only an 64-bit DSN. Installers earlier than VMware vSphere Update Manager 5.1 and later, but earlier than vSphere Update Manager 5.1 Update 1, write only a 64-bit DSN. This issue does not work, and the following error is displayed: "The user might be identified as being the first connection to the database." Workaround: To create the ODBC connection, use the 32-bit version of the ODBC Data Source Administrator (odbcad32.exe) to create the 32-bit DSN.
- On Windows 8 and Windows Server 2012 hosts, if you join a vCenter Server Appliance 5.1 to a Windows Active Directory domain and then add a Windows 8 or Windows Server 2012 host to vCenter Server, the host might not be able to join the Active Directory domain. Workaround: Join the host to the Active Directory domain before adding the host to vCenter Server.
- To ensure that vSphere Web Client 5.1 and vSphere Client 5.1 are updated to the latest version, you must log in to the vSphere Web Client or vSphere Client with an account that has administrative privileges. If you log in to the vSphere Web Client or vSphere Client with an account that does not have administrative privileges, the vSphere Web Client or vSphere Client might not be updated to the latest version.

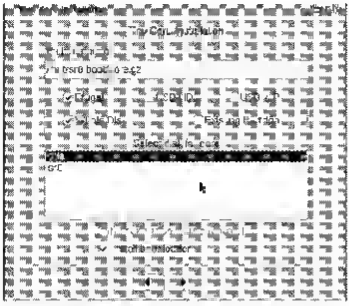
2.1.1. Step 1. Source and destination



In this first step, we need to select the install media, install type and the target. The installer may be able to detect the install media automatically as in this image; if not, click on the "Path" entry to manually browse for the install media.

The three install types on Plugged USB HDD and USB ZIP Plugged is the default type. It may be installed to a partition, and usually works. Install to Hard Disk is for USB-HDD mode thumb disk and is slightly different formatting, which may help the USB thumb boot on computers where this would not. USB-ZIP is for older BIOSes that needed ZIP drive emulation in order to boot from USB

The password is reset from the password tab. The password can be up to 63 characters.

The next three items are all on the setup tab of the GUI.

Reset Default Service Set Identification (SSID)

The service set identification (SSID) defines a network name for your wireless network. In order to communicate the WAP and the client's wireless interface must specify the same SSID. The Linksys WAP comes with a default SSID of "linksys." The SSID is easily changed but changing it will at least deter the casual attacker.

The SSID can be up to 32 characters in length.

When The Warmth Went South

Environment Climate change alarmists either ignore the existence of the Medieval Warm Period or say that it was regional rather than global A new report, however, shows that the warming was worldwide

The Medieval Warm Period is a profound problem for those who claim that man's 20th- and 21st-century carbon dioxide emissions are warming the earth.

If an era as warm or warmer than today did indeed exist 500 to 1,000 years ago, before man had invented the CO2-emitting internal combustion engine, then it weakens their claim that any warming occurring now is due to human activity. The reality of such a period is a strong sign that climate change is both natural and cyclical, not caused by man's modern habits.

In fact, confirmation of the Medieval Warm Period not only dilutes the alarmists' argument, it virtually kills it.

So rather than deal with it, they act as if it never happened. They want to try to make it, as one message among the Climate-gate emails suggested, "go away."

Or they insist that it was confined to Europe and maybe North America, and therefore is of little relevance. This is the position of the United Nations' Intergovernmental Panel on Climate Change, which is supported by America's Environmental Protection Agency that says the "geographical extent, magnitude and timing of the warmth during this period is uncertain."

It's also the position of Al Gore, the former vice president who set off most of the global warming hysteria.

He has maligned the Medieval Warm Period as a "tiny" blip on the temperature chart of history that he imagines proves the nonsense that he's been disgorging for years.

Scientists from Syracuse University, however, have found evidence that strongly affirms that the Medieval Warm Period was no myth but rather a global event, affecting even Antarctica.

Their study, published in the April issue of Earth and Planetary Science Letters, carries the academic title of "An Ikaite record of late Holocene climate at the Antarctic Peninsula." Journalists shouldn't let the wonkish title stop them from reporting on the study. And they probably won't. Instead, the bulk of the mainstream media will conveniently miss the study for another reason. It doesn't fit their man-is-causing-the-earth-to-warm narrative. There's nothing new there, though. It's an old habit for the media to either ignore or poorly cover evidence that doesn't support global warming alarmism.

A rather cursory look at just three websites — former meteorologist Anthony Watts' blog, junkscience.com and the home of the Science and Environmental Policy Project — reveals the media have passed on at least 26 studies, reports and articles that punch holes in the global warming claim.

From a study that found tree-ring data, used extensively in the hockey stick chart that allegedly proves global warming, are an unreliable proxy of past temperatures, to an account of growing sea ice in the Arctic and in Antarctica, to a report about researchers finding a new ocean current, there's a lot of contrary evidence to dislodge.

And that's looking back only a month. How much more evidence is out there contradicting the scientific "consensus" that man's warming the planet, but is being disregarded by an agenda-driven mainstream media?

Don't expect the man-a-enviro-alarmist complex to give up its campaign because research has yet again shown that its case against humanity continues to wilt under scrutiny.

It's too heavily invested in its story and the goal — stronger government, weaker capitalism and diminished liberty — that it's been zealously working toward.

But it has suffered another small cut, and the more wounds keep adding up as the facts continue to roll out and the effects of climate change that we have been warned about never develop, its golden age will have been pushed closer to its conclusion by a warm period.

How to use your Inventory File Template

Step 1

Print th s page

Step 2

Refer to the "Data Definitions" tab to familiarize yourself with the acceptable values that can be entered into your template. We recommend printing the Data Definitions sheet so you can refer to it as you complete your template. If you have a file with macros and have enabled the macros, you can access the specific Data Definition for each cell in the template by double-clicking on the cell We've a so provided the fo lowing guidelines regarding the usage of each field:
Required: Required columns indicate the minimum values that are requ red to create an entry in the Amazon catalog. These columns have bold headings. Other cells may be required as well depending on the values you enter elsewhere. (For example, you must provide sale dates if you provide a sale price.) Failure to enter valid values in a required cell will prevent your product from
Desired: Desired columns give customers the basic information they need to make an informed purchasing decision. It is highly recommended that you fill in all desired cells. Not prov ding a desired value may result in poor product descriptions and/or make your product hard to find. For example: a product can exist in the catalou but cannot be offered for sale without a price or
Optional: Optional columns may or may not apply to your product, or may reference information that s useful, but not critical, when offering a product for sale. We encourage you to fill ont all antional cells that apply to your products. In some cases, fields we have labeled "optional" may in

Step 3

As indicated in the "Data Definitions" tab, some cells require that you use valid terms from the valid values tab. These terms are specific to the product attribute and are used for discoverability and categorization. Please provide the most complete product information possible to ensure your Some cells require that you use valid codes from the "Browse Tree Guide (BTG)." The BTG is a separate .txt document that can be downloaded from Seller Central. The BTGs contain the nodes that Amazon com uses to assign products to browse categories online. In it you will find mappings between browse categories and Amazon s l st of controlled terms which will allow your product to surface in those categories. You should find the single most specific category relevant to your product, then use the corresponding query to determine what field and value you need to use to

Step 4

Refer to the "Image Info" tab for image standards. Images must conform to these standards.

Step 5

See the "Example" tab for an example on how to enter product information. In order to avoid including invalid information in your upload, do not work on your own items within the Example

Step 6

Click on the "Template" tab below to view the template from which you will create an inventory file. The column headers in bold indicate the required cells. For best results, submit data in as many fields as are appropriate to your products. If you are not providing data for a particular cell, you leave the cell blank. If you would find it helpful, feel free to add color, bold borders and other formatting (not additional text) to the template. Such formatting will not be exported to the

Test Pattern 1.0

This here be some text We want at least one page of text included in the testing because text is usually what people transmit in a fax – like a contract page with a signature Don't get me wrong graphics are fine but text gives us that warm and fuzzy feeling that this testing is rooted in simulating real-world scenarios

Graphics, on the other hand, allow us to see minute transmission flaws that are easily overlooked in a text message The brain is a wonderful thing and can cause us to overlook small missing details Take for example the car company called KIA Have you ever noticed that the "A" is missing the bar? It looks like a /\"

There are other examples of how the brain will fill in missing pieces of characters or even whole words I won't bore you with more details The point is that text is not the best transmission to prove a fax system is working correctly

Because the human brain is adept at recognizing patterns the following pattern pages will easily allow one to detect even a small fax issue

NOTICE OF UNAUTHORIZED USE OF CONTRACTOR'S LICENSE

TO: ALL CHIEF BUILDING OFFICIALS IN BROWARD AND PALM BEACH COUNTIES

Please let this letter serve as notice that the license number under which our company is qualified, CGC1514456, has been used by a Mr. Ralph Meadows of "Ram or Shine Patios" to fraudulently pull (9) permits in the Broward and Palm Beach County areas, without our approval or consent. The fraudulent person has been utilizing our licenses and pulling unauthorized permits by forging names and signatures on the permit documents.

We have submitted a formal complaint to the Department of Business and Professional Regulation, which is currently under investigation. We are also in the process of filing an injunction to stop Mr. Meadows from using our name.

We are asking your building department to assist us in this investigation. **We kindly request your department's assistance to do the following:**

1) Temporarily suspend ALL open or pending permits listed under "Jersey Pride Construction" as the contractor, until our qualifier has visited your department in person.
2) Call our qualifier at 954-947-0880 to inform us if there are permits that you have suspended.
3) Reject any new permits or documentation presented by Mr. Ralph Meadows.

Thank you very much for your assistance in this matter. If there are any questions please contact our qualifier's mobile phone at 954-947-0880.

The male shooter was shot and later pronounced dead in the Walmart parking lot. As of Sunday night, authorities had not released his name, age or other details about him.

A young female – thought to be a teenager, said Wilson – also was shot, with emergency personnel then transporting her to Tacoma General Hospital. She eventually died from her wounds.

Wilson said authorities don't know if the female victim knew the male shooting suspect or if she was an innocent bystander.

The two deputies, both men with between five and 10 years of experience in the department, were sent to Tacoma General Hospital to be treated for what Wilson described as "non-life-threatening" injuries. The third deputy, a woman, wasn't hurt.

Wilson described the situation as "somewhat chaotic" but "stabilized."

Operating System Compatibility

Windows 8.x/OS X v10.10/OS X v10.9/OS X v10.8/OS X v10.7/Mac OS X v10.6

To install and use the software, however, several things should be noted. Before using this product read this sheet carefully.

For Windows Users

- **Notes on the Installation**
  - Install the software by referring to the installation procedure for Windows described on your setup guide supplied with the product.
  - If the "Setup CD-ROM" does not autorun, insert the CD-ROM into the computer again and click the selection button which appears in the window. When selection window opens, double-click the [MSETUP4.EXE]. Follow the on-screen instructions to proceed.
- **Notes on upgrading Windows**
  We recommend uninstalling software bundled with the product, and then upgrading your operating system. After the upgrade has completed, reinstall the software.

For Mac OS X Users

- **Notes on the Install ation**
  - Install the software by referring to the installation procedure for Mac described on your setup guide supplied with the product.
  - The screen may appear to prompt you to install Rosetta during the installation. Follow the instructions to install Rosetta, and then reinstall the software.
  - When the software download screen appears, click **Install** and proceed with the installation using "Setup CD-ROM" supplied with the product.

The Bundled Software with This Product

- Easy-WebPrint EX is not supported for Safari 5.1 on OS X v10.7. If you upgrade Safari to Safari 6.1 on Mac OS X v10.8, Easy-WebPrint EX becomes unusable.
- For Easy-PhotoPrint EX, MP Navigator EX and Easy-PhotoPrint Pro, the displayed items in **Presets** on the print dialog box may differ depending on Mac OS X version. When printing from OS X v10.7, make sure that **Presets** is set to **Default Settings** on the print dialog box.

Horrible Service Perillo Dealership They dont care about you!!

By [illegible] 10 [illegible] PST

Value Hate It Recommended

Stay away from this dealership From Service Department to Dan Kearns running the Dealership They dont care about you I was told by the Dan that he did not care that I lived in the neighborhood did not care that they received my car due my care it or even if the mirror I'd to buy a new car did not care about me Dan runs Perillo [illegible] West Diversy They are arrogant terrible people to do business with They sell BMW's or AMERICAN CARS They are a disservice to Ford products people use Perillo did me I don't have to worry about having my car serviced or buying a new car from them in the future as they are CLOSING THE DEALERSHIP AT THE END OF JANUARY I told me I was a jerk He's right I was a jerk for going to the LINCOLN MERCURY FORD SHOP for service and car shopping or I never call at this dealership [illegible] I have been a loyal Ford Customer for over 23 years and have never been treated the way they treat customers. No concept they are closing! Be my of their dealership but treat you right. Stay away from these guys especially Dan Kearns Follow does where they are closing and will start as an MINI Coopers in the future. Dont just stuck with their arrogant horrible service you will regret it. They are a disservice to the industry. They broke my car and never once apologized or even offered a courtesy for free. and told me 3 hours to look at and $175.00 an hour for labor.

BENEFICIARY NOTICE
DEPARTMENT OF HEALTH AND HUMAN SERVICES (SCDHHS)

SCDHHS gives notice of the following action regarding Medicaid services

Beginning March 31, 2004 the Medicaid program will require you to pay a small part of your medical bill for some services called a co-payment. The reason for this step is to enable you to assume some responsibility for your medical care. The following services will require a co payment. You pay your provider the co-payment amount when you receive a service. The provider will tell you when you need to make a co payment. The following is an outline of what you will be asked to pay

• Doctor office visits (Physician, nurse practitioner)	$ 2 00
• Medical equipment	$ 3 00
• Optometrist (Vision/Eyes)	$ 1 00
• Chiropractor	$ 1 00
• Podiatrist (foot care)	$ 1 00
• Home Health	$ 2 00
• Clinic visits (Federally Qualified Health Center, Rural Health Center, Ambulatory Surgical Center)	$ 2 00
• Dentist	$ 3 00
• Prescription Drugs	$ 3 00
• Inpatient Hospital	$25 00
• Outpatient Hospital other than emergency room	$3 00

The following beneficiaries are excluded and do not have to pay co pay

- Children under 18 years of age
- Pregnant women
- Institutionalized individuals
- Individuals receiving Hospice Care
- Individuals receiving emergency services
- Individuals receiving home and community based waiver services
-

You will not be denied services if you are unable to pay, but it is important that you share in the cost of your medical care.

If you feel this action is being taken in error, you may ask for a fair hearing before SCDHHS. To request a fair hearing, send a request in writing within 30 days of the date of this letter to: Division of Appeals, Post Office Box 8206, Columbia, S C. 29202. You can hire an attorney to help you or you can have someone come to the hearing and speak for you.

Call your local Medicaid caseworker or beneficiary services at 1-888-549-0820 if you have additional questions.

PARA CLIENTES EN ESTADOS UNIDOS Y CANADÁ
(OFERTA NO DISPONIBLE EN AMÉRICA LATINA)

Estimado cliente de Dell

Queremos darle las gracias por haber escogido impresoras y artículos Dell™. Nos gustaría expresar nuestra gratitud ofreciéndole la oportunidad de reciclar su impresora antigua y artículos de impresora sin que esto le cueste nada. Para reciclar su impresora antigua, no tiene que salir de su casa ni oficina. Para reciclar un cartucho de tóner usado y un tambor fotoconductor simplemente tiene que dejarlo en su oficina de envío de paquetes más próxima.

El enfoque primordial de Dell es siempre responder a las necesidades que el cliente pueda tener de nuestros productos o servicios. Una de esas necesidades es crear un ambiente de colaboración y ayuda que acepta más con toda responsabilidad. Dell gestiona cada fase del ciclo de producción, desde el desarrollo y la fabricación de un producto hasta el reemplazo y reciclado del mismo, contribuyendo así a disminuir el impacto que esto pueda producir en nuestro medio ambiente.

Para reciclar su impresora antigua

1. Coloque el artículo que desea reciclar en la caja que acompañaba a su producto Dell.
2. Para clientes en Estados Unidos, vaya a www.dell.com/recycling. Para clientes en Canadá, vaya a www.dell.ca/recycling.
3. Siga las instrucciones de la pantalla.

Para reciclar su cartucho de tóner o tambor fotoconductor usado:

1. Coloque el artículo que desea reciclar en la caja que acompañaba a su producto Dell.
2. Para los Estados Unidos y Puerto Rico: llene la etiqueta de pago sin franqueo, péguela en la caja y entréguesela a la empresa de transportes UPS durante su próxima recogida/entrega o deje el paquete en cualquier centro UPS.
3. Para Canadá: rellene la etiqueta de pago anticipado y llame para poner una fecha de recogida.

Si tiene cualquier otro equipo informático que desea donar o reciclar, los clientes de Estados Unidos pueden ir a www.dell.com/recycling y los clientes de Canadá a www.dell.ca/recycling.

Para obtener más información sobre los programas de medio ambiente de Dell, le invitamos a ir a nuestra página web sobre medio ambiente visitando www.dell.com/environment en los Estados Unidos y www.dell.ca/environment en Canadá.

Estamos seguros de que encontrará esta opción la solución más fácil y de mayor seguridad medioambiental posible. Esperamos seguir satisfaciendo no sólo sus necesidades, sino aquellas que promuevan el ambiente de trabajo que deseamos crear.

Atentamente

Michael Dell

Fax Line Condition Test	**FAIL**

Your fax line has a weak signal

Please check the items below then rerun the test.

Other equipment sharing the fax line can reduce the signal strength.

Disconnect any equipment which is sharing the fax line (including extension phones, answering machines and dial up PC modems).
If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

If the Fax Line Condition test still fails, contact your phone service provider to have the fax line checked.

Refer to your User Guide for more information on the fax test and settings.

Instructions on how to rerun this test
Step 1 Press the "Setup" button
Step 2 Choose the "Tools" menu
Step 3 Choose the "Run Fax Test" item

YOU MUST READ THIS OWNER'S GUIDE BEFORE OPERATING YOUR GAS GRILL

⚠ DANGER

If you smell gas

1. Shut off gas to the appliance.
2. Extinguish any open flames.
3. Open lid.
4. If odor continues, keep away from the appliance and immediately call your gas supplier or your fire department.

Leaking gas may cause a fire or explosion which can cause serious bodily injury or death, or damage to property.

⚠ WARNING:

1. **Do not store or use gasoline or other flammable liquids or vapors in the vicinity of this or any other appliance.**
2. **An LP cylinder not connected for use shall not be stored in the vicinity of this or any other appliance.**

⚠ WARNING: Follow all leak check procedures carefully in this manual prior to barbecue operation. Do this even if the barbecue was dealer-assembled.

NOTICE TO INSTALLER! These instructions must be left with the owner and the owner should keep them for future use.

THIS GAS APPLIANCE IS DESIGNED FOR OUTDOOR USE ONLY.

⚠ WARNING: Do not try to light this appliance without reading the 'Lighting Instructions' section of this manual.

修订版前言

《中文》(试用版)教材是1996年由中华人民共和国国务院侨务办公室委托暨南大学华文学院为海外学校 华人子弟学习中文而编写的。全套教材共初级 其中《中文》主课本12册 家庭练习册24册(分为A B册) 教师教学参考书12册。这套教材自1997年5月陆续出版 至到1999年11月全部出齐,达令已发行560多万册 仍供不应求。2000—2003年,我们又接受国务院侨务办公室委托 先后听制了与本教材配套的多媒体教学光盘《中文》及网络版教材《网上学中文》(见中国侨网:http ://www.chinaqw.com 暨南大学华文学院网站 http ://hwy.jnu.edu.cn) 同时又将《中文》改编为繁体字版教材,一并发行使用 深受海外华文教师 学生及家长的欢迎和好评。

这次《中文》教材的修订是中华人民共和国国务院侨务办公室委托暨南大学华文学院 华文教育研究所承原《中文》教材试用版的基础上 总结自1997年以来的试用情况 结合海外华文教育的实际需要和特点 广泛听取多方面意见和建议 以教材研究为依据修订编成的。修订再版的《中文》教材全套共52册 练原有的48册外,另增编了配套的《学拼音》课本1册 《学拼音练习册》2册及《学拼音教学参考》1册。

本教材的教学目的是使学生能够全面地学习全套教材的学习与训练 具备汉语普通话听、说 读、写的基本能力,了解中华文化常识 为进一步学习中国语言文化打下良好的基础。

在修订编写过程中 我们根据海外华文教育的目标要求 及教学对象的年龄 生活环境和心理特点出发 从中国国家对外汉语教学领导小组办公室汉语水平考试和培训的《汉语水平等级标准与语法等级大纲》(1996) 中国国家汉语水平考试委员会办公室考试中心制定的《汉语水平词汇与汉字等级大纲》(2001) 和中国国家语委 国家教委公布的《现代汉语常用字表》(1988) 等为依据和参考 科学地安排教材的字 词、句、篇章等内容 由浅入深 循序渐进地设置课堂练习 巩固教学相关 学以致用 培养学生的学习兴趣 启发学生积极思考 提高学生运用中文的能力。同时 我们对海外现有中文教材进行了深入的分析研究 参考和借鉴了许多有益的经验 力求使教材达到教与练 学与用的统一 并在教材内容与体例 图文编排 题型设计以及教学理念的体现等方面有所创新。

现将修订中的有关问题作如下说明

一 根据海外中文(华文)学校的课时情况 修订后的《中文》教材每册由原来的14课调整为12课。并适当降低了课文难度。每4课为1个单元 每册共有4个单元。每个单元附有综合练习 每册增加了笔练习。每册教材均附有音序生词表 随意收录本册各课所有生词(含带音节词和多音节词)。生词右下角标注课文序号。

二 修订版教材第1册第1—6课为识字课 主课文每只列生字,不列词语和句子 自第

Amish Friendship Bread

Important Notes: DO NOT use metal spoons or equipment. Use only glazed ceramic or plastic bowls or containers

DO NOT Refrigerate

As bag fills with air, let out as necessary. It is normal for batter to rise, bubble, and ferment.

First Day for this batch is: 12-7-12-26

Day 2 – Mush the bag
Day 3 – Mush the bag
Day 4 – Mush the bag
Day 5 – Mush the bag
Day 6 – Add 1 cup flour, 1 cup sugar, 1 cup milk. Mush the bag
Day 7 – Mush the bag
Day 8 – Mush the bag
Day 9 – Mush the bag
Day 10– Baking Day!!

Baking Instructions:

1. Pour entire contents of bag into a non-metal bowl.
2. Add 1 ½ Cup Flour (slowly), 1 ½ Cup Sugar, and 1 ½ Cup Milk. Mix with a non-metal spoon/ spatula.
3. Measure out 4 separate batters of 1 cup each into 1 gallon freezer bags. Keep one starter for yourself and pass out the other 3 to friends with a copy of these directions. Mark each bag with the date to keep track of the days.
4. Preheat oven to 325 degrees.
5. Grease 2 large loaf pans. Mix ½ cup sugar with 2 tsp. cinnamon. Dust greased loaf pans with ½ of the mixture
6. Add the following to the remain batter in the bowl: 3 eggs, 1 cup sugar, 1 cup oil, ½ cup milk, 2 tsp cinnamon, 1 ½ tsp baking powder, ½ tsp baking soda, ½ tsp salt, ½ tsp vanilla, 2 cups flour, 1 large box vanilla instant pudding.
7. Pour batter evenly into 2 pans and sprinkle with the remaining sugar and cinnamon on top.
8. Bake for 1 hour
9. Cool bread until it loosens evenly from the pan (about 10 minutes).

If you keep a starter for yourself you will bake every 10 days. The bread is very good and makes a great gift. Only the Amish know how to create the starter, so if you give them all away, you will have to wait until someone gives you one back.

Enjoy!

Adobe Acrobat PDF Files

Adobe Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- Anyone, anywhere can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they do not have the application used to create the document.
- PDF files *always print correctly* on any printing device.
- PDF files *always display correctly* on any computer, regardless of fonts, software, and operating system used. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

the problem, then treating the causes and the area of pain or restriction.

The unaided hand is hard pressed to detect and break up as much scar tissue or follow the kinetic chain as effectively or efficiently as stainless steel instruments can.

Patients usually receive two treatments per week for four to five weeks. Most patients have a positive response within two to three treatments. Most patients are not disabled and continue to perform their regular functions at home/work.

GT decreases overall time of treatment fosters faster rehabilitation/recovery reduces need for anti-inflammatory medication and resolves chronic conditions thought to be permanent.

If you have not experienced the Graston Technique® yet you have lingering discomfort or stiffness please ask us whether you may be helped by this effective treatment.

Care Instructions and Possible Side Effects

Dedication to a prescribed home exercise program is essential to the success of your treatment. Stretching and strengthening exercises are given to you in order to maintain the release of scar tissue, restrictions and adhesions.

Bruising
Since the involved tissue binds with normal tissue, it develops a blood supply. As restrictions are released from healthy tissue, bruising may occur--especially in treating chronic conditions. Some areas of the body that have a very rich blood supply may produce more bruising. Bruising can be controlled with ice.

Soreness
An increase in soreness and discomfort is not uncommon after the first treatment session and is most often a positive sign that restrictions have been released. Soreness is usually minimized after 48 to 72 hours and can be controlled with ice and stretching.

Water Intake
It is recommended that you drink six to eight 8-oz. glasses of water per day. Adequate hydration is important to promote proper healing.

How to use keyboard-layout-editor.com

Getting Started

- Try adding some of the different keys from the palette at the top of the page. It will give you a good idea of the editor's capabilities.
- Set a key's color by clicking on it. Then click on the color you'd like from the palette.
- You can select multiple keys by holding down Ctrl and clicking on them. You can also do a click-and-drag selection by Ctrl-clicking in an area. You can also do drag selection for single and multiple keys while they're selected.
- Try the keyboard shortcuts listed below. They make entering large properties much faster.
- You can save your layout to the server by clicking the "Save" button on the top bar.
- You can save your layout locally by bookmarking the "Permalink" (or the import string) in your bookmarks.

Keyboard Shortcuts

?	Show this help dialog
↑ ← ↓ →	Move the selected keys
Shift + ↑ ← ↓ →	Resize the selected keys
Ctrl + ↑ ← ↓ →	Move the color selection for the selected keys
PgUp / PgDn	Change the angle of rotation for the selected keys
Tab	Add a new key
Del	Delete the selected keys
Esc	Edit the text of the selected key
J / K	Select the previous / next key in the array
Ctrl-S	Save your layout on the server

PER SERVING (entire recipe): 289 calories, 4.5g fat, 853mg sodium, 23.5g carbs, 6.5g fiber, 6g sugars, 34.5g protein -- PointsPlus® value 7*

A brand-new tofu shirataki meal! If you gluten-avoiders haven't yet tried these wheatless noodles, the time is NOW.

Ingredients
1 package House Foods Tofu Shirataki Fettuccine Shaped Noodle Substitute
4 oz. raw boneless skinless chicken breast, cut into bite-sized pieces
1/8 tsp. each salt and black pepper, or more to taste
1/8 tsp. garlic powder
1/2 cup sliced mushrooms
1/2 cup chopped onion
1 1/2 tsp. chopped garlic
1 tbsp. fat-free mayonnaise (like the kind by Kraft)
2 tsp. reduced-fat Parmesan-style grated topping (like the kind by Kraft)
1 wedge The Laughing Cow Light Creamy Swiss cheese
2 cups chopped spinach leaves

Directions
Use a strainer to rinse and drain noodles. Thoroughly pat dry. Roughly cut noodles.

Bring a skillet sprayed with nonstick spray to medium-high heat. Add chicken and season with salt, pepper, and garlic powder. Add mushrooms, onion, and garlic. Cook and stir until chicken is cooked through and veggies have softened, about 5 minutes. Remove contents and set aside.

If needed, clean skillet. Remove from heat, re-spray, and bring to medium heat. Add noodles, mayo, Parm-style topping, and cheese wedge, breaking the wedge into pieces. Cook and stir until cheese has melted, mixed with mayo, and coated noodles, about 4 minutes.

Stir in spinach, chicken, and cooked veggies. Cook and stir until spinach has wilted and dish is hot, 2 - 3 minutes. EAT!

INFORMATION, QUESTIONS, AND INQUIRIES

Please visit our website at travel.state.gov. In addition, you may contact the National Passport Information Center (NPIC) toll-free at 1-877-487-2778 (TDD at 1-888-874-7793) or by email at NPICttravel.state.gov. Customer Service Representatives are available Monday-Friday 8:00 a.m.-10:00 p.m. Eastern Time (excluding federal holidays). Automated information is available 24 hours a day, 7 days a week.

U.S. PASSPORTS, EITHER IN BOOK OR CARD FORMAT, ARE ISSUED ONLY TO U.S. CITIZENS OR NON-CITIZEN NATIONALS. EACH PERSON MUST OBTAIN HIS OR HER OWN U.S. PASSPORT BOOK OR U.S. PASSPORT CARD. THE PASSPORT CARD IS A U.S. PASSPORT ISSUED IN CARD FORMAT. LIKE THE TRADITIONAL U.S. PASSPORT BOOK, IT REFLECTS THE BEARER'S CITIZENSHIP, IDENTITY, AND NATIONAL TY AND IS SUBJECT TO EXISTING PASSPORT LAWS AND REGULATIONS. UNLIKE THE U.S. PASSPORT BOOK, THE U.S. PASSPORT CARD IS VALID ONLY FOR ENTRY TO THE UNITED STATES AT LAND BORDER CROSSINGS AND SEA PORTS OF ENTRY WHEN TRAVELING FROM CANADA, MEXICO, THE CARIBBEAN, AND BERMUDA. THE U.S. PASSPORT CARD IS NOT VALID FOR INTERNATIONAL AIR TRAVEL.

IMPORTANT NOTICE TO APPLICANTS WHO HAVE HAD A PREVIOUS U.S. PASSPORT BOOK AND/OR PASSPORT CARD

LOST OR STOLEN — If you are requesting a routine Form DS-82 and are filing and requesting a Lost or Stolen U.S. Passport report, you have committed a violation of U.S. law. Book and/or passport card numbers submitted on this application

NEW POSSESSION — If your most recent U.S. passport book or passport card was issued when you were less than 15 years old and you are now over the age of 15 but under 16 years old, you may be able to use Form DS-82 to apply for a passport by mail. If you meet these requirements, you may submit your previous passport book or passport card with your DS-82 application. For more information, please visit our website at travel.state.gov.

SPECIAL REQUIREMENTS FOR CHILDREN

IF AN UNDER-16 YEAR OLD CHILD HAS BEEN ADOPTED OR:

- [illegible] application for a child who has been adopted by a U.S. citizen parent, the adoption must be finalized before a passport can be issued. [illegible] adoption decree, the child must be in the legal and physical custody of the U.S. citizen parent for at least 2 years and must have lived with the parent for at least 1 year. [illegible] adoption decree, the child must be in the legal and physical custody of the U.S. citizen parent for at least 2 years and must have lived with the parent for at least 1 year. [illegible] adoption decree, the child must be in the legal and physical custody of the U.S. citizen parent for at least 2 years and must have lived with the parent for at least 1 year.

IF CHILD DOES NOT LIVE WITH BOTH PARENTS OR ONE OF THE PARENTS:

Consent from the parent(s) not applying for the child's passport is required. If the parent(s) not applying for the child's passport is unable to appear at the time of application, he or she must complete Form DS-3053, Statement of Consent. The statement must be signed in the presence of a passport agent or an acceptance facility/passport application agent. If the parent(s) not applying for the child's passport is unable to appear at the time of application, he or she must complete Form DS-3053, Statement of Consent. The statement must be signed in the presence of a passport agent or an acceptance facility/passport application agent.

- A child should not be issued a passport if a court order restricts the child's travel or removal from the United States.
- If a child's parent is deceased, he or she must submit a certified copy of the death certificate.

FAILURE TO PROVIDE INFORMATION REQUESTED ON THIS FORM, INCLUDING YOUR SOCIAL SECURITY NUMBER, MAY RESULT IN SIGNIFICANT PROCESSING DELAYS AND/OR THE DENIAL OF YOUR APPLICATION.

WHAT TO SUBMIT WITH THIS FORM:

1. PROOF OF U.S. CITIZENSHIP: Evidence of U.S. citizenship (certified copy, official, or forged will be returned to you.)
2. PROOF OF IDENTITY: Your application must be signed in the presence of an ACCEPTANCE FACILITY/PASSPORT APPLICATION ACCEPTANCE AGENT. A photocopy cannot be accepted and cannot be accepted as passport application.)
3. A RECENT COLOR PHOTOGRAPH: Your photo must meet requirements — must be taken within the past 6 months and in color.
4. FEES (Please visit our website at travel.state.gov for current fees.)

See page 2 of the instructions for detailed information on the complete and submission of this form.

WHERE TO SUBMIT THIS FORM:

Please complete and submit this application in person to one of the following acceptance agents: a clerk of a federal or state court of record; a judge or probate judge; [illegible] agent; a designated employee [illegible] agency; or a designated employee of an authorized post office. You can also call 1-800-80-80-80 (passport agency) or visit our website at travel.state.gov for information on locations. Please have your current acceptance facility or passport agent review the application before you sign it.

WARNING: False statements made knowingly and willfully in passport applications, including children's or other documents submitted to support this application, are punishable by fine and/or imprisonment under U.S. law, including the provisions of 18 U.S.C. 1001, 18 U.S.C. 1542, and/or 18 U.S.C. 1621. Alteration or mutilation of a passport issued pursuant to this application is punishable by fine and/or imprisonment under the provisions of 18 U.S.C. 1544. The use of a passport in violation of the restrictions contained therein, or the aiding or abetting of another to violate such restrictions, is punishable by fine and/or imprisonment under 18 U.S.C. 1544. All statements and documents are subject to verification.

A section of Jefferson's earliest known draft of the Declaration of Independence

Click for enlargement and credits

The Declaration of Independence

Almost everyone knows that Thomas Jefferson wrote the Declaration of Independence. However did you know that, like most people who write something, he wrote at least one rough draft? This is an example of what's left of the earliest known draft of the Declaration. You can see that Jefferson heavily edited his first draft before he prepared a clean, or "fair," copy that became the basis of the "original rough draught." The other representatives from the 13 colonies selected Jefferson to write the Declaration because they all agreed he was the best writer. Do you know any of the words of the Declaration of independence by heart?

Files Not Found During The Copying Stage

If you get files not found during the copying stage restart the repair install after inspecting the CD for any surface imperfections and if you have multiple CD drives, switch to the other CD drive

Also check the hard drive cables making sure they are the proper cable and seated tightly in the connections.

If the problem is not resolved..and you have no other option, continue with the install by closing all the files not found message windows until setup finishes.

Apply the **XP firewall** then run Windows update after reaching the desktop and the missing files should be replaced.

You should backup ALL data if you haven't done so prior to the repair install before making any other changes to the system.

If the system seems unstable, run defrag, reboot a few times and trouble shoot any error messages. If system cannot recover, double check if you have all data you can not replace backed up and the proceed with a **Clean Install**

Small Pool Schedule Descriptions

Adult Rec Swim
Our small pool will be available to adult during the allotted time indicated. This time is available for you to swim laps, exercise or water walk.

Preschool Open Swim
This time is designated for the preschool swimmer

Youth/Teen and Family Rec Swim
We have designated times for each age/family group to come and enjoy the pool.

The following safety rules are in effect during all open swim times:

- No rough housing or jumping on or near fellow swimmers
- No running on the pool deck
- Non-swimmers are not allowed in the pool without a bubble and must be accompanied by an adult.
- All swimmers 6 years and under must be accompanied in the water by an adult.
- Lifeguards will require a Swim Test of any swimmer of questionable ability wishing to use the deep end. To pass a swim test the participant must be able to swim assisted for 25 yards on the stomach (one length of the pool), with good horizontal body position and demonstrate the ability to submerge completely

Water Slide (guidelines regulated by the Board of Health)

- You must be 48" tall or able to swim one pool length unassisted to ride this slide.
- Form line on pool deck, not on stairs
- No tubes, mats, or life jackets permitted in flume
- Only one rider at a time. No doubles, tandems or chairs
- No diving or jumping from flume
- Enter slide in sitting position.
- Wait for lifeguard's starting instructions before riding
- Ride slide feet first in the sitting or lying down on back.
- Keep arms and feet inside flume.
- Exit splashdown pool area immediately.

*Pregnant women and people with a heart or back condition should not use the slide

Big Pool Schedule Descriptions

Teen/Adult Swim
Lap swimming is a great way to get fit and stay in shape. At the Lynch/Van Otterloo YMCA, lap lanes are provided for YMCA members except during swim team practice and when there is a High School or YMCA dual meet. Lap swim lanes are only for individuals 13 and up who are capable of swimming from one length of the pool to the other without stopping. Time is also available in the warm water pool for lap swimming. See small pool schedule

Youth/Teen & Family Rec Swim
Come and join the fun during one or our open rec swim times.

The following safety rules are in effect during all open swim times:

- Non-swimmers are not permitted in the big pool.
- All children under the age of 5 and who do not need a bubble may swim with an adult in the water
- No rough housing or jumping on or near fellow swimmers
- No running on the pool deck
- Lifeguards will require a Swim Test. To pass a swim test the participant must be able to swim unassisted for 25 yards on their stomach (one length of the pool) with good horizontal body position and be comfortable submerging and/or putting face in the water for more than 5 seconds.

Water Fitness Classes (Both Pools)
Aqua Aerobics Our free Water Aerobics classes offer participants the chance to get a great workout in the pool and tailor their experience to their fitness level. Offered at convenient times throughout the week, all Water Aerobics classes are drop-in and open to all YMCA members.

Aqua Zumba: The class provides various Latin American rhythms and dances we love from our zumba class. We have modified and adapted to the aquatic environment with our losing the basic identity and flavor that makes zumba so much fun

***There will be a reduction in lap lane availability between 9:00am and 12:00pm on rainy days to accommodate summer camp use**

For more information about this schedule, contact
Susan Geertin, Aquatics Director, at geertins@northshoreymca.org.

Telephone line interference

Solution

If you are having difficulty sending or receiving a fax due to possible interference on the telephone line, we recommend that you adjust the Error correction for compatibility to reduce the modem speed for fax operations.
1. Press **Menu**, **2**, **0**, **1**.
2. Press up arrow [▲] or down arrow [▼] to choose Basic (for VoIP) Normal or High

- Basic (for VoIP) cuts the modem speed to 9600 bps and turns the error correction mode (**ECM**) **OFF**
  a. If you regularly experience interference on a standard telephone line, try this setting.
  b. If you are using VoIP, service providers offer fax support using various standards.
- Normal sets the modem speed at 19600 bps
- High sets the modem speed at 33600 bps

3. Press **OK**.
4. Press **Stop/Exit**.

Note When you change the Compatibility to Basic (for VoIP), the ECM feature is not available.
SPECIAL NOTE Solution confirmation by SSE Enterer Support

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, the site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring—hopefully, it will automatically answer and sp

Hello World

IMPORTANT NOTICE FOR END USERS IN AUSTRALIA ONLY

FOR THE POLYCOM PRODUCT YOU HAVE PURCHASED IN AUSTRALIA, THE FOLLOWING WARRANTY TERMS SHALL APPLY TO SUCH POLYCOM PRODUCT, TO THE EXCLUSION OF ANY OTHER WARRANTY TERMS WHICH MAY BE FOUND IN THE DOCUMENTATION ACCOMPANYING THE POLYCOM PRODUCT.

Hardware and Software Warranty

1. Limited Warranty

What do I need to do to consolidate my existing Aetna/PayFlex HSA funds into my 2015 YSA HSA account?

Note: If you currently have investments with your Aetna/PayFlex HSA, they will be automatically liquidated prior to the transfer to UMB Bank. If you prefer to liquidate your investments please do so by January 7, 2015.

- **Fill out the enclosed UMB HSA Transfer Form.**
  1. **Complete Section A**. Be sure to include your phone number in case UMB has to contact you about your transfer.
  2. **No action needed in Section B**. "HSA to HSA" is already checked.
  3. **Complete Section C**. If you have any question regarding your current account with Aetna/PayFlex please call 1 800 416 7053.
  4. **Read, sign and date**. Read the certification text at the bottom of Section C then sign and date the form in the box provided.

- **Fax the completed UMB transfer form to YSA at 386-211-9900 or mail it to the address below**

  YSA
  P.O. Box 785040
  Orlando, FL 32878-5040

- **Forms are due no later than December 22, 2014.**
  - Starting January 7, 2015, a "black-out" period will be in effect on your Aetna/PayFlex account during which your PayFlex debit card will be deactivated and you will not be able to access your funds.
  - Aetna/PayFlex will use the completed UMB form to transfer your funds from your Aetna/PayFlex account to UMB via a ACH by January 26, 2015.
  - Check your UMB account about 5 business days after Aetna/PayFlex has completed the transfer to verify your funds have been transferred appropriately.

- **Please review the Frequently Asked Questions on the following page.**

Please call Your Spending Account™ at 1-877-427-4015 between 8 a.m. and 8 p.m. EST if you have further questions or require assistance.

Phone Cord Connected to Correct Port on Fax	PASS
Using Correct Type of Phone Cord with Fax	PASS
Dial Tone Detection	FAIL
Fax Line Condition Test	PASS

A dial tone was not detected.

Please check the items below then rerun the test.

Other equipment sharing the fax line can reduce the signal strength.

Disconnect any equipment which is sharing the fax line (e.g. answering machines, answering machines, and dial-up PC modems).
If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

If your HP device is connected to a Private Branch Exchange (PBX) rather than the public telephone system, the Dial Tone Detection test may fail.

However, you should be able to successfully send and receive faxes.

Refer to your User Guide for more information on the fax test and settings.

HATE ME!

✓ Or even INSULATE MY ENTIRE PORTFOLIO FROM LOSSES?

So after working through the whole scenario with our CEO Tom Gardner.

Even I had to admit,

Trying to use a newsletter to answer investing questions like that was a bit like *trying to use a hockey stick to eat sugar pie*

And it's proven, our *Stock Advisor Canada* newsletter has beat the pants off the market.

There was a time when we would be able to offer information on "hands-on" and sophisticated to so many investors even if we all joined Rob on his punishing 84-hour-a-day working shift.

And no way we'd be deft enough to take advantage of one of those golden opportunities the market hands us from time to time, when we had promised to publish our next new issue right after Labour Day. On the second and fourth Wednesday of every month.

And when we were rare bound to keep a simple 50/50 split between Canadian listed and American listed stocks.

(Even though the mix of companies listed on those national exchanges vary so greatly and even though the currency exchange rate is always changing.)

But reading messages like this made me realize our CEO was right about the need for a "hands-on" real-money persona in the area of investing.

I have many good stocks ... [illegible] ... but I need ... [illegible] ... What are your recommendations ... [illegible]

"What are your results, and how ... [illegible] ... ?"

"Just wondered ... you have any opinion/advice for the Canadian market"

"What are the best stocks for [illegible] dividends and how ... [illegible] ... future dividend payouts etc?"

So in my heart I knew our CEO Tom Gardner was right. I was justified in feeling proud of my little investing newsletter for Canadians – just like he was proud about his investing newsletter for Americans. But I knew there had to be something more.

And as you can see from the queries to the right, our members knew too.

It was simply a matter of *what, how ... and who*

The last one was really the easier problem to solve.

Tom pledged us that $250,000 cash is a friend to sight of right. It was, this spot, until, we reminded him – our lucky Americans! – that none of the banks are open on Victoria Day.

But as you can see here, he did make good on his pledge soon enough.

Fax Test Report

Jul 5 2017 5:30PM

The fax detects an active telephone line. **Fail**

An active phone line was not detected

Please check the items below and then rerun this test.

HP recommends using the telephone cord that came with the product.

Verify that the fax cord is securely connected between the telephone jack and the product (or another device that is connected to the product).

Disconnect the product from the jack in the wall and then connect a telephone to the jack. Try to make a voice call to verify that the telephone line is working.

Connect the product to a different phone line.

Try a different phone cord.

Remove any phone line splitters that are in use.

Ensure that a filter is installed if using DSL.

Instructions on how to rerun this test:

Step 1 Press the [Setup] button.
Step 2 Select "Service."
Step 3 Select "Fax Service."
Step 4 Select "Run Fax Test."

Brother One-Year Limited Warranty and Replacement Service

(USA Only)

What is covered:

- This limited warranty ("Warranty") applies only to the original end-user who purchases the Product in the U.S.A., its Possessions and Territories, and only to Products purchased and used in the U.S.A., its Possessions and Territories. This Warranty applies only to Products that are new and are purchased from Brother or from an Authorized Brother Reseller. (To find out who is an Authorized Brother Reseller, please call 1-800-284-4329 in the United States.)
- If your Product is defective in material or workmanship, Brother will, at its option, repair or replace the Product with a new or refurbished Product. The repaired or replacement Product will be warranted for the remainder of the original Warranty period.
- Brother will pay ground shipping charges to return the repaired or replacement Product to you.

What is not covered:

This Warranty does not apply to: (1) damage caused by accident, misuse, abuse, neglect, unauthorized repair, alteration, improper packing or shipping (claims must be made to the carrier), lightning, power surges, or other external causes; (2) damage caused by failure to properly maintain the Product; (3) damage caused by use of parts (including ink and toner) not manufactured or sold by Brother; (4) damage caused by improper installation; (5) Products which have been modified without the written permission of Brother; (6) Products which have had the serial number altered, defaced or removed; (7) Products shipped outside the U.S.A., its Possessions and Territories; (8) consumable parts (such as fuses or batteries) unless damage has occurred to such parts; (9) cosmetic damage; (10) normal wear and tear; (11) Products sold "as is" or "with all faults"; (12) Products returned under an exchange program; (13) loss of data; (14) Products whose warranty sticker, Product serial number plate, or electronic serial number has been removed or defaced; (15) Products used with any third party hardware, software or peripheral equipment; (16) Products used for commercial purposes, including rental; (17) Products purchased, used, serviced, or shipped for repair from outside the U.S.A., its Possessions and Territories; (18) Products sold by "open box" vendors; (19) Products sold through auction sites; (20) Products purchased or used in violation of any trade or export laws; (21) Products purchased or used for illegal purposes; (22) Products used for any activity that violates any local, state or federal ordinance, statute, or regulation; (23) Products used for personal, family or household purposes; (24) Products used for any activity that violates any boycott laws; (25) Products used for any activity that violates any boycott laws; (26) Products used for any activity that violates any boycott laws;

Send a Free Fax

Category: Fax

"I don't have a fax machine, but I've heard that there are places on the Web that will let me send a free fax. I visited one site but they wanted my credit card to open a 'free trial account.' Is there a truly FREE Internet fax service?"

Free Fax Service

[En Español: Envía un Fax Gratis]

Yes, there are a few places online that allow you to send a free fax, no strings attached. You don't need a fax machine; you don't need fax software; you don't have to give anyone your credit card number. My favorite is FaxZero, which lets you send a fax to any fax machine in the United States (including Puerto Rico) or Canada for free. All you need is a connection on the Internet and a valid e-mail address. FaxZero is web-based, so you can access it with a PC, Mac or Linux-based computer.

Here's how it works: First visit FaxZero.com and fill out the fax form. Enter your e-mail address and carefully type the Confirmation Code. (This prevents malicious users and automated bots from abusing the system.) Then type the text of your fax (for a quick text-based fax) or attach a file. You can send plain text, PDF, Microsoft Word (DOC) or an Excel spreadsheet (XLS) file. Ready to send? Whack the **Send Free Fax Now** button!

A confirmation message will then be sent to your e-mail address. Your fax won't be transmitted until you click the link in that message. You'll receive an e-mail confirming that the fax was either delivered, or that it failed for some reason.

Free Internet Faxing... Really?

Yes, it's really free. The service is supported by advertising on the cover page of the free faxes you send. That seems like a small "price" to pay for sending a free fax. You don't have to buy a fax machine, fax software, fax supplies, get a fax line, or pay long distance portal charges. And typically the cover page is rarely blank anyway. Why not fill it up with something useful?

And you need not be concerned about getting spammed or scammed. If you use FaxZero, Here's the FaxZero privacy policy:

> We hate junk e-mail and junk faxes, and will absolutely not send any unsolicited e-mail or faxes. Users will receive e-mail messages (such as confirmation messages) as part of the process of using the service. If you subscribe to the FaxZero mailing list, we will send occasional news about the service, which may include advertisments for our marketing partners. Your name, company name, e-mail address, and fax number will appear in the "Sender Information" area of the faxes that you send. FaxZero will not share your information, nor information about the people you send faxes to with marketers or anyone else, unless compelled to do so by court order.

Can I Send Unlimited Free Faxes?

No, the free service provided by FaxZero is limited to 2 faxes per day, and there's a maximum of three pages per fax. If you need to send more than that, you can use the FaxZero Premium service. Sending a premium fax costs $1.99, and there's no ad or FaxZero logo on the cover page so you may like that for business communications. The number of pages increases from 3 to 10, and there's no 24-fax-per-day limitation.

> If you're looking for a free INBOUND faxing service that requires no fax machine, check out my companion article Free Inbound Faxing for more info on receiving faxes by email.

Asurion Documentation Process

REQUIRED Steps to Complete Your Claim

1	Fill out the Claim Affidavit, being sure to sign the document.
2	Attach a photocopy of a Valid ID (See Examples of Valid IDs below)
3	Upload your documents to http://www.phoneclaim.com/mitreceive-uploader or Fax to 1-866-[illegible]-2268
★	Once your claim is ready for completion or to check the status of your claim, please visit phoneclaim.com/mitreceive.

Examples of Valid Personal Identification

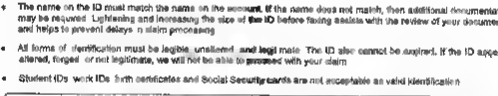
The following types of personal identification will be considered valid forms for this process.

Drivers license (US, International or Canada)
Matricula Consular ID (Mexico)
US Military ID card (Active or Retired)
State or Federally Issued ID card
US or Foreign Passport

Important Reminders!

- The name on the ID must match the name on the account. If the name does not match, then additional documentation may be required. Lightening and increasing the size of the ID before faxing assists with the review of your documents, and helps to prevent delays in claim processing.
- All forms of identification must be legible, unaltered, and legal male. The ID also cannot be expired. If the ID appears altered, forged, or not legitimate, we will not be able to proceed with your claim.
- Student IDs, work IDs, birth certificates and Social Security cards are not acceptable as valid identification.

EXAMPLES – The following are some examples of valid forms of photocopied personal identification:



Please handwrite your Claim ID number on your ID before faxing.

- The easiest way to find the make and model of the phone you are claiming is to take off the back cover and battery. The make and model should be listed near the barcode on the back of the phone.
- If you do not have the phone, you may want to check your receipt from the purchase of the phone, your service agreement, the box the phone came in, a recent copy of your bill, or your account at your Carrier's website.
- Please fax all documents together and ensure that all information is legible before faxing. An illegible claim number or wireless phone number or missing page could result in a delay in processing your claim.

Once your claim is ready for completion or to check the status of your claim, please visit phoneclaim.com/mitreceive.
You may call Asurion at 1-866-862-3367 if you have questions regarding these instructions or affidavit form.

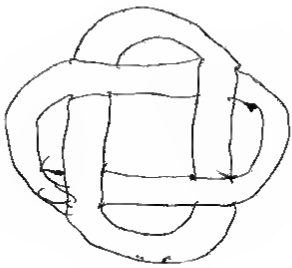
Good Morning!

:)



You will want to make these changes

- Slow down the transmission speed. Set the BAUD rate of the fax machine to 9600 bps or even lower (7200 bps would be the next lower setting).
- Turn off or disable ECM (error correction mode) a setting usually delimited on that many fax machines have.

Test faxing by using the HP Test Fax Service

- You can use the following number to test your fax and get a response fax sent right back to you. Send a one page blank fax to 1-888-479-2283 (1-888-hplaxme). After receipt of your fax the test fax will generate a return back to you with acknowledgement that your fax was received. You should receive this fax within 5 minutes.

More on Baud rates & ECM settings

We have added some additional information about these two important settings and included some instructions on making these adjustments on some fax machines.

There are some other things that you will want to check, especially if you are still experiencing communication errors. Some fax machines, especially Brother, have an Overseas Mode which can be utilized during a fax. This setting makes temporary changes to the fax tones to accommodate noise and static and should be set before each outgoing fax. Check for the following:

For complete VoIP information visit www.voipmechanic.com

- Use a direct connection from the TAD to the fax machine. Try removing any splitters and other devices in that line. Some devices may interfere with the

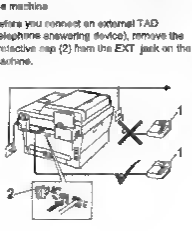
Connecting an external TAD (telephone answering device)

You can connect an external Telephone Answering Device (TAD) to the same line as your machine. When the TAD answers a call your machine will "listen" for the CNG (fax calling) tones sent by a sending fax machine. If it hears them it will take over the call and receive the fax. If it does not hear them, it will let your TAD take a voice message and the display will show `Telephone`.

The external TAD must answer within four rings (we recommend you set it to two rings). This is because your machine cannot hear the CNG tones until the external TAD has picked up the call. The sending machine will send CNG tones for only eight to ten seconds longer. We do not recommend using the toll saver feature on your external TAD if it takes more than four rings to activate it.

Unless you are using Distinctive Ring, the TAD must be connected to the EXT. jack of the machine.

Before you connect an external TAD (telephone answering device), remove the protective cap (2) from the **EXT.** jack on the machine.



1 TAD

2 Protective Cap

Note

If you have problems receiving faxes, reduce the ring delay setting on your external TAD.

Connections

The external TAD must be plugged into the back of the machine. Into the jack labeled EXT. Your machine cannot work properly if you plug the TAD into a wall jack (unless you are using Distinctive Ring).

1. Plug the telephone line cord from the telephone wall jack into the back of the machine. In the jack labeled LINE.
2. Plug the telephone line cord from your external TAD into the back of the machine. In the jack labeled EXT. (Make sure the cord is connected to the TAD at the TAD's telephone line jack, and not its handset jack.)
3. Set your external TAD to four rings or less. (The machine's Ring Delay setting does not apply.)
4. Record the outgoing message on your external TAD.
5. Set the TAD in answer calls.
6. Set the Receive Mode to `External TAD`. (See *Choose the correct Receive Mode* on page 27.)

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device temporarily disconnect device from PC.

OPERATION MODES

Standard Nite-Lite® Mode

Whenever the Nite-Lite on/off switch is off and Safe-Lite Mode (if installed) is off, the 546T is in standard Nite-Lite operating mode. In this mode the system will continuously monitor the photocell. As soon as the photocell does not sense enough light it will turn the headlights and parking lights on with the ignition on. It will also turn on the headlights and flash the parking lights for a selectable time period every time the security system is armed or disarmed, or if the (-) auxiliary channel input is triggered. If the Nite-Lite is turned on by the security system, that one operation can also be canceled by triggering the (-)auxiliary channel input.

Safe-Lite® Mode (optional)

To install the Safe-Lite option, simply wire a toggle switch (not included) in series with either one of the photocell wires (cut one lead to the photocell and connect each side to one side of the toggle switch). If the switch is on, the Nite-Lite will operate normally. If the toggle switch is off, the system is in Safe-Lite Mode and the vehicle's headlights and parking lights will be energized as long as the ignition is on. Even if it is light.

Legi-Lite® Mode

The Legi-Lite feature will turn on the parking lights and headlights immediately whenever the driver turns the windshield wipers on. For this feature to function, one of the (+ or -)wiper input wires must be connected to the vehicles windshield wiper circuit (see wiring connection guide).

OPERATION TIME ADJUSTMENT

Rotate counterclockwise for less time

Rotate clockwise for more time

The amount of time that the Nite-Lite will operate when triggered by the security system can be increased or decreased by rotating the adjustment screw under the door on the module. The adjustment range is between 1 and 100 seconds.

DAYTIME RUNNING LIGHTS

The 546T has been improved to include daytime running lights mode. The unit is shipped with this feature enabled. Anytime the ignition is on, the headlights turn on. This feature only affects the headlights. The parking lights are still controlled by the photocell. This feature can be deleted by cutting the red loop located inside the unit.

Deductions and Adjustments Worksheet

Note: Use this worksheet only if you plan to itemize deductions or claim certain credits or adjustments to income.

1 Enter an estimate of your 2016 itemized deductions. These include qualifying home mortgage interest, charitable contributions, state and local taxes, medical expenses in excess of 10% (7.5% if either you or, if married filing jointly, your spouse was born before January 2, 1952) of your income, and miscellaneous deductions. For 2016, you may have to reduce your itemized deductions if your income is over $311,300 and you are married filing jointly or are a qualifying widow(er); $285,350 if you are head of household; $259,400 if you are single and not head of household or a qualifying widow(er); or $155,650 if you are married filing separately. See Pub. 505 for details . . . . . 1 $

2 Enter: { $12,600 if married filing jointly or qualifying widow(er) / $9,300 if head of household / $6,300 if single or married filing separately } . . . . . 2 $

3 **Subtract** line 2 from line 1. If zero or less, enter "-0-" . . . . . 3 $

4 Enter an estimate of your 2016 adjustments to income and any additional standard deduction (see Pub. 505) . . . . . 4 $

5 **Add** lines 3 and 4 and enter the total. (Include any amount for credits from the *Converting Credits to Withholding Allowances for 2016 Form W-4* worksheet in Pub. 505.) . . . . . 5 $

6 Enter an estimate of your 2016 nonwage income (such as dividends or interest) . . . . . 6 $

7 **Subtract** line 6 from line 5. If zero or less, enter "-0-" . . . . . 7 $

8 **Divide** the amount on line 7 by $4,050 and enter the result here. Drop any fraction 8

9 Enter the number from the **Personal Allowances Worksheet**, line H, page 1 9

10 **Add** lines 8 and 9 and enter the total here. If you plan to use the **Two-Earners/Multiple Jobs Worksheet**, also enter this total on line 1 below. Otherwise, stop here and enter this total on Form W-4 on page 1 10

Two-Earners/Multiple Jobs Worksheet (See *Two earners or multiple jobs* on page 1.)

Note: Use this worksheet only if the instructions under line H on page 1 direct you here.

1 Enter the number from line H, page 1 (or from line 10 above if you used the **Deductions and Adjustments Worksheet**) 1

2 Find the number in **Table 1** below that applies to the LOWEST paying job and enter it here. **However**, if you are married filing jointly and wages from the highest paying job are $65,000 or less, do not enter more than "3" 2

3 If line 1 is **more than** or **equal to** line 2, subtract line 2 from line 1. Enter the result here (if zero, enter "-0-") and on Form W-4 line 5, page 1. Do not use the rest of this worksheet 3

Note: If line 1 is **less than** line 2, enter "-0-" on Form W-4 line 5, page 1. Complete lines 4 through 9 below to figure the additional withholding amount necessary to avoid a year-end tax bill.

4 Enter the number from line 2 of this worksheet 4

5 Enter the number from line 1 of this worksheet 5

6 **Subtract** line 5 from line 4 6

7 Find the amount in **Table 2** below that applies to the **HIGHEST** paying job and enter it here . . . . . 7 $

8 **Multiply** line 7 by line 6 and enter the result here. This is the additional annual withholding needed . . . . . 8 $

9 When you're in the manner of pay needed remaining in 2016. For example, divide by 25 if you are paid every two weeks and you complete this form on a date in January when there are 25 pay periods remaining in 2016. Enter the result here and on Form W-4 line 6, page 1. This is the additional amount to be withheld from each paycheck . . . . . 9 $

is formulated to result in a residue which is not significantly corrosive, with cleaning being preferred but optional.

Basic soldering techniques

Electronic components (PCB's)

The heat source tool should be selected to provide adequate heat for the size of joint to be completed. A soldering gun at 100 watts output may provide far much heat for printed circuit boards, while a 25 watt iron may not provide enough heat for joining copper roof flashing or large stained-glass lead came. Using a tool with too high a temperature can damage sensitive components, but a tool that is too cool can cause an extended heating-up period which can also cause extensive damage.

For attachment of electronic components to a PCB proper selection and use of flux is the best way to ensure that all solder pads and device terminals remain clean and oxide-free, which is essential for good wetting and heat transfer. The soldering iron tip must be clean and pre-tinned with solder to ensure rapid heat transfer. The devices must be mounted on the circuit board properly. Components which dissipate large amounts of heat during operation are sometimes elevated above the PCB a few millimetres to allow proper cooling. After inserting a through-hole mounted component the excess leads can be cut leaving only a length equal to the radius of the pad. Plastic mounting clips or holders may be used with large devices to reduce mounting stresses.

A heat sink may be used on the leads of sensitive components to reduce heat transfer to the component (before that the heat sink will require the use of MORE heat to complete the joint). If ALL copper surfaces are not properly fluxed and brought above the melting temperature of the solder in use, the result will be an unreliable 'cold soldered' joint. To achieve a properly heated joint, the soldering iron and the solder must be applied separately to the surfaces to be joined, rather than the iron being applied directly to the solder. When the surfaces are adequately heated up the solder will melt and flow into the joint. The solder supply is then removed from the joint, followed by the heat source. Even distribution of solder throughout the joint gives a mechanically sound and electrically conductive joint. Since non-eutectic solder alloys have a small plastic range the joint must not be disturbed until the solder has cooled down through both the liquidus and solidus temperatures. Visually a good solder joint will appear smooth and shiny, with the outline of the soldered wire clearly visible. Too little solder will result in a dry and unreliable joint, too much solder (the solder blob very familiar to beginners) is not necessarily unsound, but will allow proper inspection of the joint. Depending on the flux used, any flux residue remaining on the joint may have to be removed, using water, alcohol or other so-some compatible with the process. Excess solder and unconsumed flux and residues must be wiped from the soldering iron tip between joints, but the tip of the iron must be kept wetted with solder ("tinned") constantly when in to prevent oxidation and vaporisation of the tip itself.

Environmental legislation in many countries, and the whole of the European Community now, have led to a change in formulation of both solders and fluxes. Water soluble non-resin based fluxes have been increasingly used since the 1980's so that soldered boards can be cleaned with water or water based cleaners. This eliminates hazardous solvents from the production environment, and effluent.

Pipe/Mechanical soldering

Since copper is an outstanding conductor of heat, and has a high heat capacity as well, large copper items like plumbing pipes and fittings require far more heat to solder effectively than an iron or gun can provide. The best choice for most plumbing jobs is a propane torch, though for large jobs MAPP gas is occasionally used.

As with all solder joints, all parts to be joined must be clean and oxide free. With the large surface areas and open flame heating usually involved mechanical pre-cleaning is almost always advised in this sort of

Oedipus Discussion Questions

1 Examine Oedipus' speech early in the play (p 4) and later (p 104 5) For each passage list the details given in the speeches which allow Oedipus to describe himself How do the lists differ and why? What was Sophocles showing in the details of these passages? Create a list of apostrophes for Oedipus

2. You are citizens of Athens and have just acted as chorus members in Sophocles' latest great hit, Oedipus the King. After the play, you have gathered on the shaddy side of the Parthanon, sipping Starbuckalopolus Coffee (the latest rage in Athens) Inspired by the scenery the caffein, and especially the play, you have grown philosophical in discussing the play in terms of the controlling role of fate free will, and chance in determining Oedipus' downfall Although you are pretty evenly divided in your views, reason rather than emotion prevails Using specific ideas, examples, perhaps even an inspirational quote, create your rational defense did Sophocles believe man was controlled by fate, free will, or chance? Remember that this play was performed at the Feast of Dionysius, a significant religious event in Athens.

3 Although Oedipus' life may not seem realistic, art should imitate life. Defend Oedipus as an imitation of life as Aristotle described Justify Sophocles' use of this seemingly far-fetched plot of a son murdering his father and marrying his mother. Is the plot probable, possible, credible and complete as Aristotle observed tragedies were?

4 Why is the sphinx story so significant in the play? Why wasn't Oedipus given some other challenge?

5 Did the play incite the proper emotional response? Why was it so successful or why (where) did it fail?

Hotmail

From Wikipedia, the free encyclopedia

Hotmail (official), **Microsoft Hotmail**, previously **Windows Live Hotmail** and **MSN Hotmail**) was a free web-based email service operated by Microsoft as part of Windows Live which was recently replaced by the newer Outlook.com service by Microsoft. Hotmail was one of the first web-based email services.[3] It was founded by Sabeer Bhatia and Jack Smith and launched in July 1996 as "HoTMail".[4] It was acquired by Microsoft in 1997 for an estimated $400 million, and shortly after it was rebranded as "MSN Hotmail". The current version was released in 2011.[5]

Hotmail features unlimited storage, Ajax, and integration with Microsoft's instant messaging (Windows Live Messenger), calendar (Hotmail Calendar), file hosting service (SkyDrive), and contacts platform.[6] As of 2012, Hotmail was the world's second largest web-based email service after Gmail with 360 million users.[1][7] It is available in 36 different languages.[8][9]

Hotmail is developed from Mountain View, California. When Hotmail Corporation was an independent company, it was headquartered in Sunnyvale.[10][11]

On 18 February 2013, Outlook.com (a newer webmail service by Microsoft)[12] deprecated Hotmail.[13] Existing Hotmail customers are scheduled to be upgraded to Outlook.com during 2013.[13]

A Pont-l'Evêque au poste? What ho!
How are yarces all well flow?
But don't touch a Pont-l'Evêque beyond that stage,
For what you'll have, you'll surely find
Is just an overfragrant mush—
There's no benefit to that *fromage* from age.

Claret, don't use Coca Cola,
When you're having Gorgonzola—
Be particular to serve the proper wines,
Likewise pick a Benedictine not Coke for
Pepping up a Bleu or Roquefort—
Bless the products of the bovines and the vines!

Ave Gouda! Ave Emmenthal!
Ave Oka even more so!
Ave Neufchatel, Salata Port Salut!
And another thing with chocolate—
Every alfred pompom please—
Ah surbahl! Ah Welsh Rabbit! Ah fondue!

And we all know that "Say cheese" is
How a camerarama unfreezes
A subject in a stiff or shy, or dour way,
There's no other food so useful,
So bring on a whole cheeseful
Of the stuff of life! The cheese of the gourmet!

"I'm Dying," He Croaked

Croakers, invented and named by Roy Bongartz with the help of his wife and selected friends, are Tom Swifties in which a verb rather than an adverb supplies the pun. Some Croakers supplied by Mr. Bongartz to the *Saturday Review*:

- "We've taken over the government," the general coood.
- "My experiment was a success," the chemist retorted.
- "You can't really train a beagle," he dogmatized.
- "That's no beagle, it's a mongrel," she muttered.
- "You ought to see a psychiatrist," he counseled me.
- "That's my gold mine!" he claimed.
- "But it was mine," he exclaimed.
- "And I used to be a pilot," he explained.

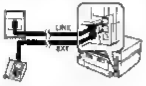
6 Connect the fax line

To fax, connect a phone cord to a telephone wall jack and to the **LINE** port on the back of your product. To connect a telephone or answering machine, use the **EXT** port on your product. See the online *User's Guide* for more details.



Note: If you're connecting to a DSL phone line, you must use a DSL filter or you won't be able to fax. Contact your DSL provider for the necessary filter.

7 Install software

Note: If your computer does not have a CD/DVD drive, you can download the software from the Epson website (see "Epson technical

Connection options

Wireless connection

You must install the software on every computer from which you want to print. For the first installation, we recommend using a USB cable (not included) to simplify wireless setup. After the printer is connected to the network, you will be prompted to remove the cable.

If you're using Mac OS X 10.4.x, 10.7.x, or 10.8, or you don't have a USB cable, you will need to use the control panel on the printer to select wireless settings. Follow the instructions on your computer screen during software installation; they will explain how to connect the printer wirelessly this way.

Make sure you know your network name (SSID) and network password:

- Network name: _____
- Network password: _____

If you don't have this information, contact the person who set up your network.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colors and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the application used to create the document.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software, and operating system. Fonts and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Really Important -

Bamboo Climate Zone Information

~~Before we can~~ To assist you at all in finding the best bamboo for your climate, it is ~~very~~ important ~~that we~~ to know in which outdoor climate zone you ~~have in mind for our weather-hardy~~ will plant our bamboo. We use the **U.S.D.A Hardiness Zones** to determine this. Please enter your **Zip Code** in the box below to get ~~a good guess at what~~ your zone ~~Zone you live in (keep in mind~~ Microclimates within zip codes exist that may cause Zones to vary slightly)

The result will auto-populate the (simple English?) **Advanced Bamboo Finder** pull down menu for U.S.D.A Zone (where?)

BALTIMORE COUNTY PUBLIC SCHOOLS

Dear Parents and Guardians:

The middle school years are extremely important in your child's development. The emphasis in these grades is on academic, physical, social, and emotional growth of students. Critical to these is the measurement of student performance and the communication of achievement to parents.

Your child's report card is the major indicator of your child's progress. It provides a profile that reflects your child's strengths, weaknesses, and interests during the transitional period of life. Along with the teacher and student, parents must play an active role in their child's education. Grades alone do not tell the whole story. We encourage you to take every opportunity to learn more about your child's school work by discussing your child's total achievement with his/her teachers.

Effort and hard work from students, supported by a positive learning environment at home and school, will result in all students being successful and prepared to live productive adult lives.

Sincerely yours,

Joe A. Hairston

Finance and Accounting for Non-Financial People

This comprehensive one-day program is for managers, supervisors, business owners, professionals and executives from non-financial backgrounds. You'll learn the jargon, standard practices, and everyday applications of finance and accounting.

IN THIS ONE-DAY PROGRAM, YOU'LL LEARN HOW TO:

- Increase your confidence as you contribute your ideas in financial planning meetings with upper management
- Speak the language of the people who control your organization's purse strings
- Develop performance reports that show planned vs. actual income and expenses
- Enhance your decision-making skills by better understanding the financial impact of your choices
- Cut through the complex jargon of accounting
- Build a reputation for consistently being on budget
- Apply the universal ground rules of finance to any organization's reports and planning processes
- Get your new ideas implemented and applauded for their bottom-line results — rather than set aside and left unheard
- Assess the liabilities and payoffs of new ventures, proposals, and plans

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Background

ASIAN BEEF SALAD

2 boneless beef top loin steaks, cut 1 inch thick (about 1-1/4 pounds)
1/2 medium red onion, cut lengthwise into thin wedges
3 tablespoons chopped fresh cilantro
4 cups torn mixed salad greens or thinly sliced Napa cabbage
2 tablespoons coarsely chopped peanuts (optional)

Citrus Soy Dressing
2 tablespoons fresh lime juice
2 tablespoons soy sauce
1 tablespoon sugar
2 teaspoons dark sesame oil
1 serrano pepper seeded, finely chopped
1 large clove garlic, minced

Place beef steaks on rack in broiler pan so surface of beef is 3 to 4 inches from heat.
Broil 13 to 17 minutes for medium rare to medium doneness, turning once
Remove, let stand 10 minutes.

Meanwhile whisk dressing ingredients in small bowl until blended.
Carve steaks into slices
Combine beef, onion and cilantro in medium bowl
Add dressing, toss to coat.

Arrange on top of salad greens on platter
Sprinkle with peanuts, if desired

Makes 4 Servings

All items are carefully and securely attached to the backing. A few barely noticeable stray marks, smudges or glue stains are present. Nothing is hanging over the edges.	The vp shows some attention to construction. Most items are neatly trimmed. All items are securely attached to the backing. A few barely noticeable stray marks, smudges or glue stains are present. Nothing is hanging over the edges.	The vp was put together sloppily. Items appear to be just "slapped on". Pieces may be loose or hanging over the edges. Smudges, stains, tape, uneven edges and/or stray marks are evident.
Design	Graphics are trimmed to an appropriate size and interesting shape and are arranged well, some in front and some behind. Care has been taken to balance presentations.	Graphics are trimmed to an appropriate size and interesting shape and are arranged well some items in front and others behind. The presentation however does not appear balanced.	Graphics have been trimmed to an appropriate size and shape, but the arrangement of items is not very attractive. It appears there was not alot/enough time was given to designing the visual presentation.	Graphics are untrimmed OR of inappropriate size and/or shape. It appears little attention was given to designing the visual presentation.
Attention to Theme	The student gives a reasonable explanation of how every item in the presentation is related to the assigned theme. For most items, the relationship is clear without explanation.	The student gives a reasonable explanation of how most items in the vp are related to the assigned theme. For many of the items, the relationship is clear without explanation.	The student gives a fairly reasonable explanation of how most items in the vp are related to the assigned theme.	The student's explanations are weak and illustrate difficulty understanding how to relate items to the assigned theme.
Time and Effort	Class time was used wisely. Much time and effort went into the planning and design of the vp. It is clear the student worked at home as well as at school.	Class time was used wisely. Student could have put in more time and effort at home.	Class time was not always used wisely, but student did do some additional work at home.	Class time was not used wisely and the student put no additional effort.

KEVIN BRADY: OUR CONSERVATIVE CONGRESSMAN

SECURING THE BORDER

Kevin is defending the Constitution. He's standing strong against President Obama's illegal amnesty - with a proven record in securing our border and championing legal worker verification. Kevin is a strong conservative voice against illegal immigration.

CUTTING DEBT, CREATING JOBS

A pro-small business conservative, Kevin has spent a lifetime creating jobs and championing free enterprise. As a key member of the House Ways & Means Committee, Kevin is leading the fight to balance the budget, fix the broken tax code, rein in the IRS, and reform the welfare system.

FIGHTING TERRORISM AND SUPPORTING OUR TROOPS

Kevin is a leading voice against President Obama's dangerous nuclear Iran deal. He knows radical Islamic terrorism is the greatest threat to our security. After 9/11, he successfully established a national network of security centers to prevent future attacks. He is fighting relentlessly to fully fund America's military might, intelligence capability, and our veterans.

Unlike many congressmen, Kevin never moved to Washington. He commutes to work each week from Texas. Kevin and his wife, Cathy, are raising their two boys here.

Call Kevin today at 281-363-3237 or visit bradyforcongress.com

This is my last test... Jasen

I think you're confusing heir metal with glam rock Glam rock died out in the mid 70 s

As for 88 91 being dead for rock

Dire Streits
RHCP
White Zombie
Suicidal Tendencies
KMFDM
NIN (with Pretty Little Hate Machine, and Head Like a Hole were released during this period)
Cowboy Junkies
Primus
The Offspring
The Dead Milkmen
Pop Will Eat Itself
Matthew Sweet
Butthole Surfers
GWAR
Jane s Addiction

Let s see
Peter Murphy was still putting out albums
Rush put out several albums
The Greatful Dead were still releasing albums

Hell, Ice T formed Bodycount in 1990
Rage Against the Machine formed in 1991

Beastie Boys started to slip back into their punk roots to create a rock/rap fusion with Check Your Head, and cemented the sound in '93 s Ill Communication

Are you talking about what was played on the radio where you lived, or what was actually released, or what was worth listening? These things do not always align

Ja-Kae called me back with concerns on sending faxes
they currently have to print out items from IHIS and other documents that need signed by Patients and Physicians
they have too many of these types of documents to be able to scan each of them to their e-mail from the xerox machine
in order to be able to send a fax via e mail
LVM to talk to Charles to see if he has any options for the before we set them up with a Physical fax line

جناب آقای دکتر پرویسی

مدیریت محترم تحصیلات تکمیلی دانشکده مهندسی شیمی نفت و گاز

موضوع نامه پروژه فارغ التحصیلی "ساخت روغن سمنتری پایه استر"

احتراماً، به عرض می‌رساند دفاعیه پروژه فارغ التحصیلی اینجانب در تاریخ ۹۵/۷/۱۸ با عنوان "ساخت روغن سمنتری پایه استر" در مقطع کارشناسی ارشد انجام شد. این پروژه از این جهت که در داخل کشور یک نوآوری بحساب آمده و جنگونگی مراحل ساخت یک روانکار دی‌استر را بیان می‌دارد، قابل توجه است. علاوه بر این به پیشنهاد آقای دکتر حوش اندام (استاد راهنمای پروژه) سینتیک مولد این دی‌استر هم با انجام کارهای آزمایشگاهی و پس از آن با حل معادلات و انجام عملیات ریاضی بدست آمد که با توجه به فراتر موجود، صحت آن مورد تایید قرار گرفته است. این رابطه نیز برای توسعه کارهای آتیه کاربرد دارد.

با این وصف نامه در نظر گرفته شده برای پروژه‌ای که با موفقیت به نتیجه رسیده، در خور رحمات زیاد و سایج علمی آن نیست و بنظر می‌رسد کاستی های نگارشی در این امر خیلی پر رنگ شده است. البته قول برطرف سودن این کاستی‌ها در جلسه دفاع به اساتید محترم داده شده است.

خواهشمند است اقدام لازم جهت تحدید نظر در نامه اعلامی را مبذول فرمایید.

Shareholder Purchase & Reinvestment Plan

The Corporation has a Shareholder Purchase and Reinvestment Plan ("Plan") for the benefit of its common stockholders. The Plan provides a convenient way to purchase shares or increase shareholders' holdings of Old Republic common stock. Pursuant to the Plan, participating shareholders may elect to have all or part of their quarterly cash dividends reinvested in additional shares of Old Republic common stock. Participants may also elect to make optional cash payments as frequently as each month. Such additional cash payments may be for no less than $100 up to a maximum of $15,000 each quarter, and the amount invested can vary with each payment. The dividends reinvested as well as any optional cash payments will be used to purchase shares of Old Republic's common stock as of each dividend payment date or investment date. The purchase price will be either the average of the high and low trading price for the day on which shares are issued by the Corporation or the market price if purchased on the open market.

Employees of Old Republic and any of its majority-owned subsidiaries and affiliates may purchase shares or make optional cash payments through payroll deductions. To do so, they need only request and sign the appropriate payroll department forms, including thereon the amount they wish to have withheld from each paycheck. The Plan is administered through Wells Fargo Shareowner Services who will send participants a statement showing the shares purchased following each transaction.

To obtain more information about the Plan and on how to enroll in it, contact Wells Fargo Shareowner Services as shown below.

Direct Dividend Deposit Plan

Shareholders can have their quarterly cash dividends deposited directly into their checking or savings account. The main benefit of this Direct Deposit feature is that dividends are deposited in a shareholder's checking or savings account on the date of payment – thereby obviating the wait caused by mail deliveries. This deposit is made automatically for you and your monthly bank statement should confirm the deposit.

To participate in this Direct Dividend Deposit Plan, contact Wells Fargo Shareowner Services as shown below.

IMPORTANT BENEFITS For You and Your Family

ACCIDENTAL DEATH & DISMEMBERMENT INSURANCE

Additional coverage above death benefit is also available for a child insured when that child dies or loses a limb, foot, hand, thumb, eye or hearing as a result of an accident.

ELIGIBILITY • Child Insured includes ages 18 through the end of the year they and their immediate dependent children of any age turned down. Dependent children must be under age 18, or under age 24 if a full-time student.

COVERAGE FOR TODAY'S NEEDS • Each Insured may have up to $1,000 in basic coverage. Insureds may also purchase additional coverage in increments of $1,000 up to the available limit. Some age limitations may apply.

On a single child policy, coverage terminates at age 26 or earlier.

• Loss of life, loss of hearing in both ears, or loss of sight in both eyes: 100%

• Loss of speech or hearing, or loss of one hand or foot at or above the wrist: 50%

• Loss of thumb and index finger of same hand: 25%

Any coverage does not cover losses due to sickness or disease.

Once you or your insured spouse reach age 70, the cost and additional coverage amount for that person is reduced by 50%.

ACCEPTANCE GUARANTEED • If you are actively at work and not confined to bed you can enroll regardless of your health. You must be employed 30 hours per week to be considered full-time. No questions are required for enrollment.

TERMINATION OF COVERAGE • Your coverage cannot be continued by you or your beneficiary. Premiums are paid by the group policy is not terminated and you become a member of a qualified insured group.

ADDED BENEFITS FOR MEMBER PLAN AND FAMILY PLAN:

"Cost of Living" Benefit Every two years on the anniversary date of your enrollment, your additional coverage will be increased by 5%. The cost will be added to your premium and will continue as long as you remain insured, or until your coverage has increased by a total of 25% (5 times). If you become disabled before age 65, the cost of coverage can be waived. Premiums are $0.75 per $1,000 of coverage.

Double Accidental Death Benefit If you die within one year as a result of an accident or other covered injury, your beneficiary will receive double the amount of coverage — your additional coverage benefit is also doubled.

FOR FAMILY PLAN ONLY:

Dependent Child Benefit. If death or child occurs from a covered accident and the family plan is in force, your beneficiary will receive an $1,000 check for each child who is covered on the date of the accident.

College Education Benefit for Children and Spouse. Child (ages) on your policy at your death will double benefit to up to $20,000 per year to spouse and each of your children who are college students. Benefit is payable for four years. This education benefit is payable one year after your death and for four consecutive years upon the attainment of 6 years.

Child Care Assistance Benefit. If you die, a covered child under age 13 will receive $100 per month (up to 24 months) to help with child care costs. Benefit for a child who does not attend school is for a period of up to 2 years of age. Benefit is payable to your surviving spouse or other adult caregiver. The benefit stops if the child attends school full-time. Some days you will receive $25 per month.

Seat Belt Benefit. If your spouse or dependent child dies as a result of riding in a private passenger vehicle not owning a seat belt, the coverage will pay an additional 10% of the insured spouse's or dependent child's coverage in force.

FAMILY PLAN

This Family Plan protects you, your spouse and your dependent children.

Your spouse will be insured at 50% of the child's age limit, your spouse. Dependent covered children will be insured for 20%. If you have no dependent children, your spouse will be covered for 50%. If you do not have a spouse, each child's dependent children would be covered at 50% of the coverage level you choose. Dependent children must be under age 18, or under 24 if a full-time student.

LIMITATIONS • The general terms of the insurance plans are briefly summary. A Certificate or Coverage Booklet will explain all the terms and benefits in more detail.

EXCLUSIONS • The coverage does not cover losses as set forth in a policy from suicide or any attempt or suicide while sane or insane; or any act of war, declared or undeclared; or any injury sustained in the commission of any felony; or any death or injury resulting from operating any motor vehicle while under the influence of alcohol; or resulting or attempting to commit an illegal activity; or any injury sustained in an automobile accident while under the influence of alcohol or any drug; death due to sickness, or death arising out of or in connection with a war or any act of war, whether declared or undeclared, or any act of terrorism. This exclusion does not cover any death resulting from a fatal disease, disorder, illness or complications from coronary insufficiency or any type of medical or surgical treatment.

EFFECTIVE DATE OF COVERAGE • When you complete the Application for Coverage, you will be issued a Certificate of Insurance. Your coverage becomes effective on the date shown on the Certificate.
